Partners in Storytelling

As a public service television company, part of the Vegas PBS mission is to use television to extend and amplify the effectiveness of organizations seeking to advance our region. This month, we are partnering with several community organizations to help tell the story of Southern Nevada and create a dialogue around the important issues facing our community.

Understanding the Opioid Epidemic traces the history of the opioid crisis and explores possible solutions. With grant funding from Anthem BlueCross BlueShield and in partnership with the College of Southern Nevada and the Clark County Medical Society, Vegas PBS will host a preview screening of the film and a panel discussion led by Dr. Jerry Reeves of HealthInsight. Visit VegasPBS.org to RSVP for the January 11 screening and tune in to Vegas PBS Channel 10 on Wednesday, January 17 at 10 p.m. to watch the complete documentary, followed by **FRONTLINE: Chasing Heroin**.

The 17th Annual Las Vegas Jewish Film Festival is taking place January 13-28, providing insights into Jewish identity, history and culture. Vegas PBS is sponsoring the opening night screening of **Sammy Davis Jr: I've Gotta Be Me**. This **American Masters** documentary examines Davis' vast talent and his journey for identity through the shifting tides of civil rights and racial progress. Visit lvjff.org for details.

Last year, Vegas PBS partnered with UNLV Libraries to bring viewers **African Americans: The Las Vegas Experience**, a documentary on the African American experience in Las Vegas during the Civil Rights era. On Wednesday, January 17, we will release a robust educational multi-media product based on the program. In cooperation with the Equity and Diversity Education Department, Clark County School District teachers developed curriculum for state mandated Nevada History courses using video from the program. These resources are available online and on-demand for immediate classroom, home school, community and/or personal education. Funding for this project was provided in part by grants through the Institute of Museum and Library Services and The Commission for the Las Vegas Centennial.

On Friday, January 19, Vegas PBS will host its fourth Veterans Coffee and Conversations event for veterans and their families. Vegas PBS began this monthly conversation series by inviting feedback on **Ken Burns' The Vietnam War** and continues to provide an open forum for discussion about timely topics of concern to veterans.

Vegas PBS' community health outreach service, the Desert Meadows Area Health Education Center (AHEC), will host a Clark County Medical Society Continuing Medical Education (CME) workshop on suicide prevention on Tuesday, January 23. Desert Meadows AHEC's community engagement initiatives include providing quality continuing education for healthcare professionals and fostering educational interactions between medical professionals and community members.

Your generous membership support helps fund these important documentaries, and our strong community partnerships allow us to leverage your support into expanded educational opportunities that go beyond the broadcast. As we begin this new year, we thank you for your support and hope you'll join us for these and other community education events throughout the year.

Victoria Season 2 on Masterpiece

Throughout the Month

Jenna Coleman and Tom Hughes

Jordan Waller

“...16.2 million viewers tuned in for the premiere season, making it the highest-rated drama on PBS in 20 years...”

(*Dancing on the Edge*) stars as the queen’s smoldering consort, Prince Albert. Also returning from last season are Rufus Sewell (*Man in the High Castle*) as Lord Melbourne, Victoria’s first Prime Minister and intimate friend, Nell Hudson (*Outlander*) as Nancy Skerrett, newly promoted to the queen’s chief dresser, whose secrets are yet to be revealed, and Ferdinand Kingsley (*Borgia*) as Charles Francatelli, the royal chef whose love for Nancy was spurned at the end of Season 1.

Season 2 finds Victoria adapting to motherhood after the birth of her first child, a daughter (to the disappointment of many). Meanwhile, the disaster of the Anglo-Afghan War unfolds abroad, and the catastrophic Irish potato famine begins to wreak havoc. In other foreign affairs, a royal state visit to France is in the offing. Most intriguing to Prince Albert is the budding Industrial Revolution, which is now sweeping England. There is Charles Babbage’s mechanical calculator, a collaborative project with the bewitching Ada Lovelace, daughter of the scandalous Lord Byron. Then there is William

Fothergill Cooke’s miraculous electrical telegraph, not to mention Marc Isambard Brunel’s daring – and dangerous – Thames Tunnel.

What an extraordinary time to be Queen!

Sunday, January 14

New mother Victoria is impatient to return to the business of ruling a nation, while Albert attempts to protect her from the increasingly desperate news regarding British soldiers in Afghanistan. Victoria is thrown into turmoil by the realization that she is pregnant again, and her equilibrium is further threatened by Albert’s burgeoning friendship with the lady mathematician, Ada Lovelace.

Sunday, January 21

Discontent is growing in the country, and Victoria throws a costume ball in a misguided attempt to help the silk weavers of Spitalfields – but the spectacular event only exposes her naivety, and an unexpected grief finally forces her to put childish things away for good. Despite giving birth to a healthy Prince of Wales, Victoria finds herself paralyzed by an inexplicable sorrow. Meanwhile, a tragedy in Coburg plunges Albert into his own private torment.

Sunday, January 28

Victoria decides to try her hand at foreign relations and takes the royal court on an adventure to France, stepping toe-to-toe with the cunning King of the French, Louis Philippe. **Each episode will encore the following Sunday, leading into that week’s new episode.**

Jenna Coleman (*Doctor Who*) returns for a new season as the young queen who wants it all – romance, power, an heir and personal freedom. More than 16.2 million viewers tuned in for the premiere season, making it the highest-rated drama on PBS in 20 years – second only to *Downton Abbey*.

Joining the cast in the new season is legendary actress Dame Diana Rigg (*Game of Thrones*, *The Avengers*), who plays the Duchess of Buccleuch, the court’s new Mistress of the Robes – a fount of old-fashioned good sense for the queen, who is now in the throes of motherhood. Tom Hughes

Victoria on Masterpiece (Season 1)

**Sundays, December 31 - January 14
at 8 p.m.**

In preparation for the highly anticipated return of this critically acclaimed series, we are featuring encore presentations of the first season. The eight-hour drama follows Victoria (Jenna Coleman) from the time she becomes Queen in 1837 at the age of 18 through her relationship with Lord Melbourne (Rufus Sewell), her first prime minister and intimate friend, and her courtship and marriage to Prince Albert (Tom Hughes). Famous for her candor and spirit, she was the first woman who seemed to have it all: a passionate marriage, nine children and the job of being queen of the world's most important nation. Her often tumultuous reign lasted for 63 years.

Secrets of Westminster

Sunday, January 21 at 11 p.m.

From the outside, the Houses of Parliament and Big Ben are the classic London emblems of historic British democracy. Today, this building stands as a monument to a fair and open political system, but was this always the case? Go inside its gothic walls and discover the hidden worlds of the House of Commons and the House of Lords, where back-stabbing, intrigue and traditions are the order of the day. Around the corner is one of the world's most famous churches,

Westminster Abbey, steeped in Anglo-Saxon myth and legend, royal extortion and ... dead people. More than 3,000 great men and women have been buried or memorialized here throughout the ages. It has hosted the coronation of every king and queen of England since 1066, as well as 16 royal weddings. Today, the building is still a church dedicated to regular worship, although it is a "Royal Peculiar," subject only to the sovereign and not to any clergyman.

Settle in for even more drama on these cold winter nights.

A Place to Call Home

Sundays at 6:30 p.m.

Against the backdrop of post-World War II Australia, **A Place to Call Home** stars Marta Dusseldorp (*Jack Irish*) as Sarah Adams, a nurse who becomes involved in the affairs of the wealthy Bligh family. The series deals with themes such as anti-Semitism, sexuality and social class.

Father Brown

It's a brand-new year and we are excited to announce a big schedule change for the first time ever! We will now be adding three hours of general audience programming each weekday from 2:30 p.m. to 5:30 p.m.

The success of our Vegas PBS Kids channel and streaming service, paired with the number of requests we've had from members to add more general audience programming to our schedule, have prompted us to make these changes. We welcome your feedback as you get to know some new titles, and relive some popular picks from the past.

“...the inquisitive and erudite Blake finds himself drawn into the quest to solve murders...”

Doctor Blake Mysteries

MONDAYS

Father Brown 2:30 p.m.

Based on the short stories by G K Chesterton, Father Brown follows the kindly cleric as he solves crimes in his community. In a quintessentially English world, each episode sees the enigmatic priest investigate a crime in his own particular way, using intuition and psychology. Doctor Blake Mysteries

3:30 p.m.

Fans of *Sherlock* will find another addictive detective in the iconoclastic Dr. Lucien Blake (Craig McLachlan). In 1959, after decades away from his native Australia — studying medicine in Scotland, serving in World War II and living in China — Blake returns to his rural hometown to run his late father's medical practice. But life does not remain peaceful for long, as the inquisitive and erudite Blake finds himself drawn into the quest to solve murders that confound local law enforcement.

New Tricks 4:30 p.m.

Retired detectives with over 80 years of service between them are recruited to re-examine unsolved crimes. The squad is headed by DCI Sasha Miller. Adapting to new 21st century police strategies isn't easy, as the three discover with plenty of comic results.

Great British Baking Show

2:30 p.m.

A talented batch of amateur bakers face off in a 10-week competition, whipping up their best dishes in the hopes of being named the U.K.'s best.

Ballykissangel 3:30 p.m.

When Father Peter Clifford (Stephen Tompkinson) arrives from Manchester, he knows he will be facing some opposition. After all, what is a young, inexperienced English priest doing in Ireland, of all places? Rural village life is very different from the big cities. And then there are the local gossip-mongers — here everyone knows everyone else's business. Contending with the long-established ways of the villagers and their eccentricities and superstitions is a full-time job.

Moone Boy 4:30 p.m.

This warm family comedy series is about a young boy growing up in a chaotic and creative household in late 1980s Ireland. This semi-autobiographical series is written by and stars Chris O'Dowd as the imaginary friend of 11 year old Martin, the youngest child in the large, loud Moone family. Martin has a unique view of life, dealing with enterprising school bullies with the help of his imaginary friend, who also narrates his

Ballykissangel

Moone Boy

adventures. But while most boys would dream up a superhero sidekick, Martin's pal is a man in his mid-30s.

Waiting for God 5 p.m.

Feeling old? You will be, after a visit to the Bayview Retirement Village. The food's appalling, the staff treat you like incontinent children and any show of independence is strictly frowned upon. But two elderly eccentrics are prepared neither to give in nor grow old gracefully just yet. As they find themselves thrown together by circumstances beyond their control, Tom and Diana strike up an uneasy alliance that leads to many adventures.

WEDNESDAYS

A Message from the Vegas PBS Content Director

What's New in 2018

The content department at Vegas PBS responds to all viewer inquiries. Some viewers contact us through our website, others prefer to call, and we occasionally receive handwritten letters. We appreciate them all. As content director, I review the inquiries monthly, and look for areas where we can improve our service to you.

Over the years we've had many requests for more adult programming on Channel 10 during the weekdays. Those requests have grown since the January 2017 launch of our VEGAS PBS KIDS channel, which provides additional noncommercial educational content for the youngest members of our community. We've seen significant growth of this new channel over the past year, and are pleased that so many families are benefitting from the 24/7 broadcast and streaming service.

With the success of the VEGAS PBS KIDS channel, we are reducing the number of hours of PBS Kids programming on Channel 10 and are adding three hours of adult content weekdays from 2:30 p.m. to 5:30 p.m. We've invested member dollars to acquire broadcast rights to some new titles, as well as viewer favorites that we hope you'll enjoy.

Each weekday is themed, with similar programming in each three-hour block. Mondays are filled with mysteries, including **Father Brown**, **The Doctor Blake Mysteries** and **New Tricks**. Tuesdays are more light-hearted with an hour of **The Great British Baking Show**, followed by **Ballykissangel**, a fun drama starring a young Stephen Thompson, and an hour of comedy, featuring one new series, **Moone Boy**, and one classic series, **Waiting for God**. Wednesdays are designed to provide armchair travel experiences with **Rick Steves' Europe**, **Samantha Brown's Places to Love**, **Globe Trekker** and **Finding Your Roots**, which offers personal history exploration. Thursdays are themed around the natural world and its creatures, featuring titles from the **Nature** series, alongside specials like **Wild Venice**, **Gorongosa Park**, and **Big Pacific**. Fridays are filled with science-themed programming, including **NOVA**, **Time Scanners**, and standalone specials like **The Comet Encounter** and **Hawking**.

Another change for the new year is an "extended" prime-time schedule, with an extra hour of programming each weeknight at 11 p.m. Some of these titles will also be scheduled in our new weekday adult programming lineup, for those without DVRs who may find 11 p.m. a bit too late for their viewing habits.

Our viewer services team looks forward to hearing from you, with what you like about the new schedule, as well as what suggestions you have to make it even better.

America's Test Kitchen from Cook's Illustrated Season 18

Saturdays at 11 a.m. beginning January 13

Bridget Lancaster

Perfect your culinary skills with an all-new season beginning this month. Hosts Bridget Lancaster and Julia Collin Davison head into the test kitchen to bring you equipment reviews, taste tests and recipes for the home cook.

The skilled duo lead a team of test cooks that viewers have come to love and trust – including Dan Souza, Becky Hays, Erin McMurrer, Elle Simone, Keith Dresser and Tim Chin – as they deconstruct recipes and reveal the test kitchen's secrets to foolproof cooking at home.

This season, the ATK cast grills chicken drumsticks and swordfish skewers; harnesses the power of science to make stovetop macaroni and cheese and roasted beef tenderloin; and shares the secrets behind several dishes,

including authentic pad thai, the easiest ever broiled chicken and perfect chocolate sheet cake. They also demonstrate how to perfect classic dishes of the Mediterranean diet and master vegan food that even non-vegans will love.

The series also features the popular segments viewers know and love. In "The Tasting Lab," returning expert Jack Bishop challenges Bridget and Julia to taste-test supermarket staples before revealing the series' top food recommendations for high-end olive oil, white wine vinegar, gruyere cheese and more. Then, equipment tester Adam Ried takes the hosts through an exhaustive and unbiased search for the best blenders, espresso makers, large

saucepans and silicone spatulas in "Equipment Corner."

Meanwhile, in "Gadgets Galore," Lisa McManus reviews her favorite gadgets – including tea kettles, fire extinguishers, and spiralizers – to reveal which ones are worth the cost – or not. And, Dan Souza explores the science behind radiant heat, takes viewers inside a stovetop pressure cooker, explains why it's impossible to overcook mushrooms and discusses other mysteries of food.

“...deconstruct recipes and reveal the test kitchen's secrets to foolproof cooking...”

In the frigid valleys of Japan's Shiga Highlands, a troop of snow monkeys make their way and raise their families in a complex society of rank and privilege where each knows their place. Changing seasons bring new babies to care for, a profusion of insects and blossoms to eat, family disagreements to squabble over and tragedies to overcome.

Yosemite

Wednesday, January 10 at 8 p.m.

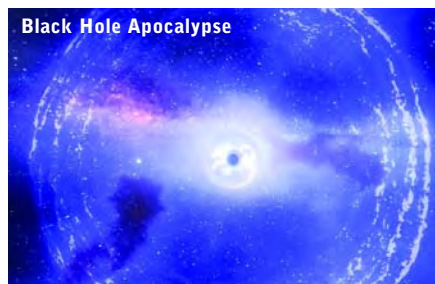

Yosemite is a land forged in wildfire and sculpted by water, but with climate change, water is scarcer and fire more common. Join scientists and adventurers to investigate how these global changes are affecting one of America's greatest wildernesses.

Arctic Wolf Pack

Wednesday, January 17 at 8 p.m.

Animal Misfits

Wednesday, January 24 at 8 p.m.

Alongside the fastest, strongest, smartest animals are nature's misfits – odd, bizarre and unlikely creatures that at first glance seem ill-equipped for survival. Left at the starting line in the race for life, these are the apparent losers in the story of evolution, yet somehow they manage to cling to life and in some cases even thrive. This special reveals some surprising details about how evolution really works, demonstrating that all animals are remarkably well-adapted to their chosen way of life.

NOVA

WEDNESDAYS AT 9 P.M.

Invisible Universe Revealed

Wednesday, January 3 at 9 p.m.

Twenty-five years ago, NASA launched the Hubble Space Telescope. But Hubble's early days nearly doomed it to failure: a one-millimeter engineering blunder had turned the billion-dollar telescope into an object of ridicule. It fell to five heroic astronauts in a daring mission to return Hubble to the cutting edge of science. This single telescope has revealed the birthplace of stars and planets,

advanced our understanding of dark energy and cosmic expansion, and uncovered black holes.

Black Hole Apocalypse

Wednesday, January 10 at 9 p.m.

They are the most enigmatic, mysterious and exotic objects in the universe: black holes. They're also the most powerful; their gravity is so strong it can actually capture light. And they're the most destructive, swallowing particles, dust, gas, planets, even giant stars. Anything that falls into them vanishes...gone forever. But now, astrophysicists are coming to realize that black holes just might be integral to the structure of the universe – and our very existence.

Hagia Sophia - Istanbul's Ancient Mystery

Wednesday, January 17 at 9 p.m.

Istanbul's magnificent Hagia Sophia has survived on one of the world's most active seismic faults, which has inflicted a dozen devastating earthquakes since Hagia Sophia was built in 537 AD. As Istanbul braces for the next big quake, a team of architects and engineers examine the building's unique structure and other ingenious design strategies that have insured the dome's survival.

Petra - Lost City of Stone

Wednesday, January 24 at 9 p.m.

How did a nomadic desert people over 2000 years ago build this magnificent city with its monumental tombs carved into cliffs, funneling water to bathhouses and pools, and do it in one of the driest places on earth? To find out, a geoscientist teams up with stone carvers to sculpt a Nabataean style tomb in a cliff face, while hydro-engineers and archaeologists uncover an urban water system that may hold the key to water needs of the future.

WEDNESDAYS AT 10 P.M.

Aurora - Fire in the Sky

Wednesday, January 3 at 10 p.m.

In Earth's polar regions, the aurora – a ghostly flicker and colorful glow – mysteriously brightens the night sky. What creates such beauty and spectacle? The documentary links popular myths to the aurora's physical effects on the natural world. For some tribes, it is the spirit of ancestors playing ball in the sky; for others, it's a harbinger of war, plague and famine. The film travels the globe, incorporating scientific research and myth, to share with viewers the awe-inspiring mystery of the aurora.

Understanding the Opioid Epidemic

Wednesday, January 17 at 10 p.m.

A searing, two-hour investigation places America's heroin crisis in a fresh and provocative light – telling the stories of individual addicts, but also illuminating the epidemic's years-in-the-making social context, exploring what happens when addiction is treated like a public health issue, not a crime.

**See Pg. 29 for details on a

Secrets of the Dead: Scanning the Pyramids

Wednesday, January 24 at 10 p.m.

The only one of the seven wonders of the world still standing, the Great Pyramid of Khufu has fascinated people for centuries. Travel with the scientific team granted unprecedented access by the Egyptian government to solve a 4,500-year-old mystery: what lies within the Great Pyramid at Giza. Using non-invasive technologies, they make a historic discovery.

Wednesday, January 3 at 11 p.m.

Scientists all over the world followed a once-in-a-lifetime event when the comet Ison raced past us in 2013 in a spectacular show that lit up our night skies. Through this documentary, explore the history of comet encounters over the centuries, as well as the cutting-

This is the intimate and revealing story of Stephen Hawking's life. Told for the first time in Hawking's own words and with unique access to his home and public life, this is a personal journey through Hawking's world. Hawking's life journey is carefully told, from boyhood under-achiever to Ph.D. genius, and from a healthy cox on the Oxford rowing team to his diagnosis of motor neuron disease, given just two years to live – yet surviving several close brushes with death. FRONTLINE: Chasing Heroin

Wednesday, January 17 at 11 p.m.

The opioid epidemic has been called the worst drug crisis in American history. Death rates now rival those of AIDS during the 1990s, with overdoses now killing more than 27,000 people a year. This timely special combines stories of people and communities

impacted, along with information from experts and those at the frontlines of dealing with the epidemic. The program also traces the history of how the nation arrived at this situation and provides possible solutions for dealing with the crisis.

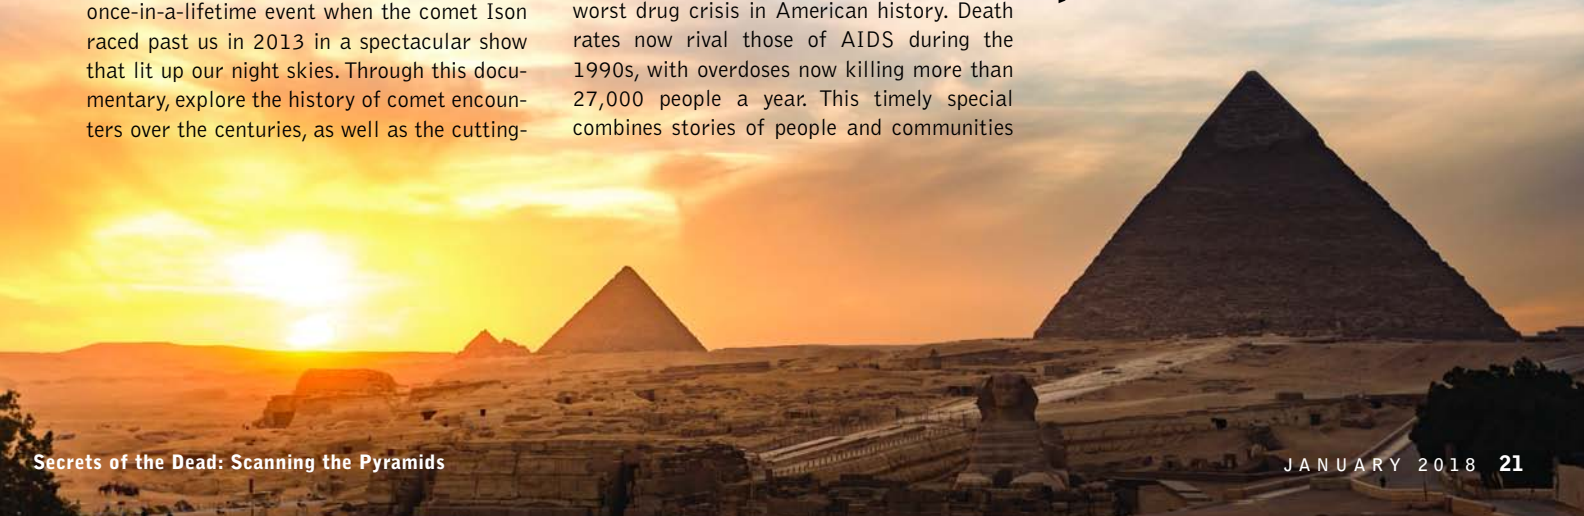

Egypt's Treasure Guardians

Wednesday, January 24 at 11 p.m.

They want to discover more of Egypt's history, keep its heritage safe and get tourists to visit the country again.

THIS WEEK'S PICKS

A Lincoln Center Special: NY Philharmonic New Year's Eve: Bernstein on Broadway

Sunday, December 31 at 9 p.m.

Ring in 2018 with the New York Philharmonic as they celebrate the 100th birthday of the late Leonard Bernstein, its fabled musical director from 1958 to 1969. From the dynamic rhythms of "West Side Story" to the brashness of sailors on leave in "On the Town," Bernstein's music for Broadway charted new stylistic and emotional territory. Led by Bramwell Tovey, with special guests Annaleigh Ashford, Christopher Jackson, Laura Osnes and Aaron Tveit, this loving tribute promises to become a classic music moment to remember. *Repeats Monday, January 1 at 10:30 p.m.*

Big Pacific

Thursdays, January 4-25 at 8 p.m.

Over four cinematic episodes, this special breaks boundaries between land and sea to survey the array of rare and dazzling creatures found in and around the Pacific Ocean. Actor and producer Daniel Dae Kim (*Hawaii Five-0*, *Lost*) narrates the series. Traveling coast-to-coast and examining the micro to the mega, the series moves throughout the world's largest ocean to present a broad range of locations, species, natural phenomena and behaviours. Each episode focuses on an iconic characteristic of the Pacific – voracious, mysterious, violent and passionate – to weave stories from across the sea that illustrate the multi-faceted character of this ocean. Filmed in ultra-high definition, the ocean and its denizens are presented in a way never before seen on television. *Encore broadcasts air the following Thursdays at 3:30 p.m.*

President Roosevelt pointing at a map of South America

Into the Amazon: American Experience Tuesday, January 9 at 9 p.m.

Learn the remarkable story of the 1914 journey taken by President Theodore Roosevelt and legendary Brazilian explorer Cândido Mariano da Silva Rondon into the heart of the South American rainforest to chart an unexplored tributary of the Amazon River. Roosevelt spent eight harrowing weeks in one of the most remote and inhospitable places on earth, battling tenacious insects, deadly rapids, fever, hunger and exhaustion on a quest to map an unknown river in one of the wildest and most beautiful places on earth. What was anticipated to be a relatively tranquil journey turned out to be a brutal test of courage and character. More than a dramatic story of adventure and survival, this special shines a light on two of the western hemisphere's most formidable men and the culture and politics of their two formidable nations.

Antiques Roadshow (New Season!) Mondays at 8 p.m. beginning January 8

Still satiating the curious after more than 20 years searching for America's hidden treasures, this popular series finds sensational first-time objects in six cities featured as part of Season 22. From eyewitness accounts of historic moments to items that are truly macabre, appraisers, guests and locations make this a ground-breaking new season! How did a mosquito reveal a masterpiece? This mystery is solved in our first stop this month in Harrisburg, Pennsylvania. Another intriguing find in Harrisburg is a head in a box! A plaster head, that is, of a convicted bank robber who fashioned the prop to aid in his attempted prison escape. Then join us as we also make visits this season to New Orleans, Portland, St. Louis, Green Bay and Newport, discovering many first-time items. *All episodes repeat the following Thursdays at 9 p.m. and, beginning with episode 2, Saturdays at 4 p.m.*

Independent Lens: I am Not Your Negro

Monday, January 15 at 9 p.m.

In 1979, James Baldwin wrote a letter to his literary agent describing his next project. The book was to be a revolutionary, personal account of the lives and successive assassinations of three of his close friends – Medgar Evers, Malcolm X and Martin Luther King, Jr. But at the time of Baldwin's death in 1987, he left behind only 30 completed pages of his manuscript. Now, in this incendiary documentary, master filmmaker Raoul Peck envisions the book James Baldwin never finished. The result is a radical, up-to-the-minute examination of race in America, using Baldwin's original words, spoken by Samuel L. Jackson, and a flood of rich archival material. By confronting the deeper connections between these three leaders, Baldwin and Peck have produced a work that challenges the very definition of what America stands for. *Repeats Friday, January 19 at 11 p.m.*

Understanding the Opioid Epidemic

Wednesday, January 17
at 10 p.m.

Investigate the current opioid epidemic, which has been called the worst drug crisis in American history. Death rates now rival those of AIDS during the 1990s, with overdoses now killing more than 27,000 people a year. This timely special combines stories of people and communities impacted, along with information from experts and those at the frontlines of dealing with the epidemic. The program also traces the history of how the nation arrived at this situation and provides possible solutions for dealing with the crisis. **The program is followed at 11 p.m. by FRONTLINE: Chasing Heroin.** A searing, two-hour investigation places America's heroin crisis in a fresh and provocative light — telling the stories of individual addicts, but also illuminating the epidemic's years-in-the-making social context, exploring what happens when addiction is treated like a public health issue, not a crime.

Migrants fleeing war and persecution for Europe

FRONTLINE: Exodus Tuesday, January 23 at 9 p.m.

Since 2011, millions of people have fled their homes in Syria and other countries besieged by violence, helping to fuel Europe's largest migration crisis since the end of World War II. This special features the epic first-hand stories of refugees and migrants as they make dangerous journeys across 26 countries seeking safety and a better life. The two-hour program draws on camera and smartphone footage filmed by refugees and migrants themselves – from inside a sinking dinghy on a route across the Mediterranean Sea where thousands have died, to the tents and fires inside Calais' notorious "Jungle" camp. Through its harrowing access and intimacy, **FRONTLINE** vividly exposes a shadow-world of human traffickers exploiting the crisis for profit, how countries are handling the influx of people and the challenges and choices these refugees and migrants face every day.

We'll Meet Again with Ann Curry

Tuesdays, January 23 - February 27 at 8 p.m.

Exploring some of history's most dramatic events, this new series brings together people whose lives intersected at pivotal moments. Each episode reveals the powerful bonds forged among people who now, against the odds, have the chance to reunite with someone who transformed their life. These moving personal stories of hope, courage and love include a Vietnam War baby desperate to find the American father she last saw 40 years ago, a military chaplain who helped a stranger through the trauma of 9/11, a Japanese-American girl interned in 1942 who never forgot the classmate who helped her during her darkest hours and civil rights workers whose lives were forever changed by the deep relationships they formed in the 1960s South. Each story will take you on a journey of hope.

Downton Abbey Marathon

We all miss those Sunday evenings when we settled in to join the Granthams and their family of servants. Now this month-long marathon will take you back to the first four seasons of this gripping drama centered on a great English estate on the cusp of a vanishing way of life. Follow them once again

through sweeping change, scandals, love, ambition, heartbreak and hope. With Julian Fellowes' crackling writing and its stellar ensemble cast led by Maggie Smith, the award-winning series delivers wit, warmth, passion and a phenomenon that is, at its heart, utterly human.

The Secret of Tuxedo Park: American Experience

Thursday, January 18 at 9 p.m.

In the fall of 1940, the fate of Western civilization hung in the balance. British Prime Minister Winston Churchill delivered his country's most valuable military secret – a revolutionary radar component – to a Wall Street tycoon, Alfred Lee Loomis. Loomis had for years led a double life, spending his days earning vast fortunes on Wall Street and his weekends working with the world's leading scientists at his top-secret defense laboratory in Tuxedo Park, outside New York City. This is the untold story of the eccentric tycoon and the circle of scientific geniuses he assembled before World War II to develop the science for radar and the atomic bomb. Together they changed the course of history. *Original broadcast airs on Tuesday, January 16 at 9 p.m. on Vegas PBS Channel 10.*

JACKPOT! SPOTLIGHT

Independent Lens: Unrest

Sunday, January 14 at 9 p.m.

Filmmaker Jennifer Brea was a Harvard doctorate student when she was struck down by a mysterious fever that left her bedridden, yet her doctors insisted it was "all in her head." Jennifer began a video diary on her phone that eventually became this powerful and intimate documentary. Once Jennifer was diagnosed with myalgic encephalomyelitis (ME), commonly known as chronic fatigue syndrome, she and her new husband were left to grapple with how to shape a future together in the face of a lifelong illness. Refusing to accept the limitations of life in bed, Jennifer embarks on an online voyage around the world where she finds a hidden community of millions who have disappeared from their own lives, confined to their homes and bedrooms by ME. *Also airs same day at 11 p.m. on Vegas PBS Channel 10.*

WORLDVIEW SPOTLIGHT

1864

Mondays at 6 p.m. beginning
January 22

This Danish drama of love in a time of war reaches across eras to connect individual lives and examines the events of this epic war that formed the self-image of Denmark. In 1864, Denmark begins scheming to annex Schleswig into the Danish Kingdom, throwing Denmark into war with Prussia. Amid escalating conflict, two peasant brothers grow up and fall in love with the same beautiful woman. Meanwhile, in 2014, a young girl suffers the loss of her brother to the war in Afghanistan. Depressed and despairing, she takes a position as aide to an aging Baron, who happens to reside in the same countryside inhabited by the brothers in 1864. Here, she discovers a diary and becomes an eyewitness to history, powerfully connected to the brothers – and thousands of Danish soldiers – who fought one of the nation's bloodiest battles. The program stars Pilou Asbæk (*Game of Thrones*). *In Danish with open English captions. Repeats same days at 9 p.m.*

Why We Support Vegas PBS...

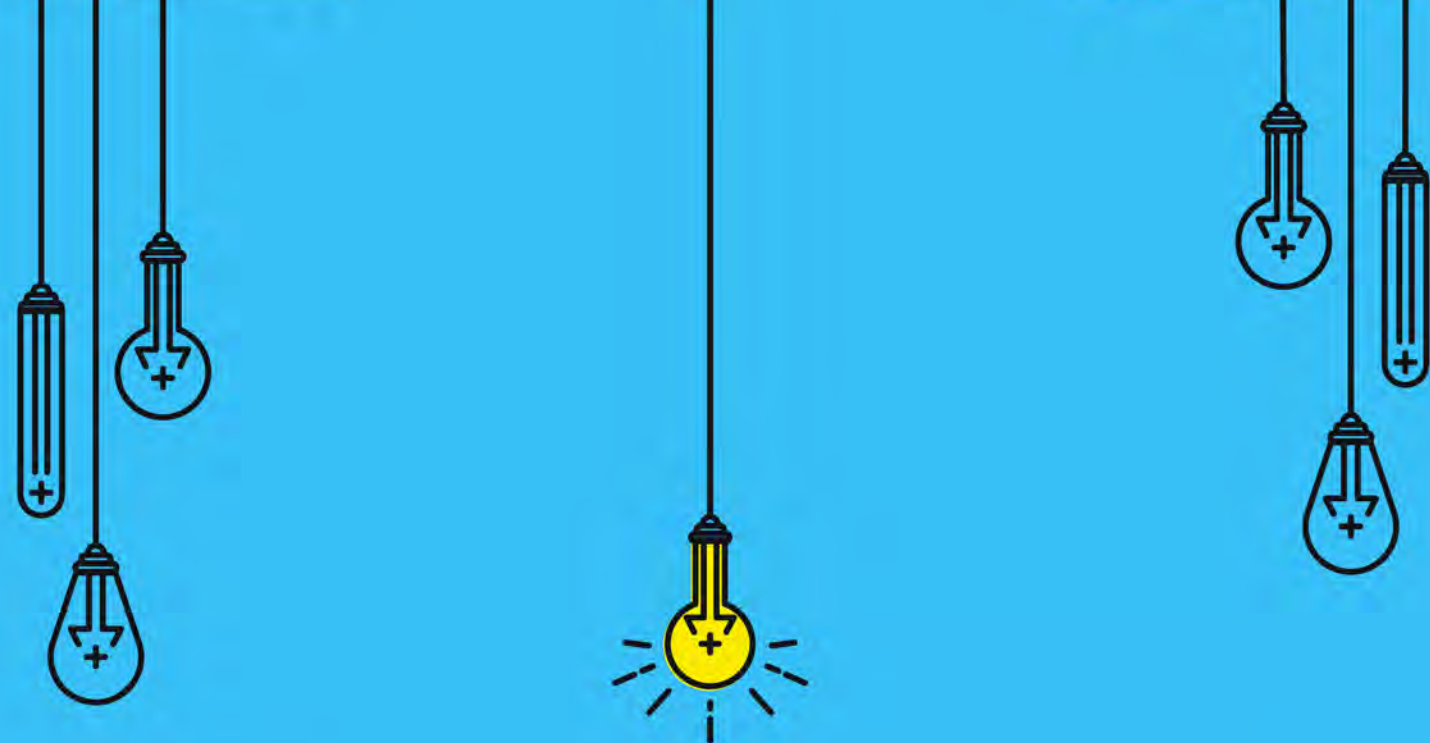

Research shows hands-on, interactive learning experiences and imaginative play in informal settings help reinforce what our children learn in school. DISCOVERY Children's Museum and Vegas PBS help children develop essential foundational skills and ignite a passion for discovery and lifelong learning in unique and innovative ways. It is important to DISCOVERY Children's Museum that parents are provided educational content they can trust in a space that is safe and respects the amazing journey of childhood. Vegas PBS does all of this with its award-winning PBS Kids programming. Southern Nevada children and families are stronger because we work together and support Vegas PBS.

ABOVE & BEYOND

BE PART OF THE KINGDOM.

Ever since the first Land Rover was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. To experience one of these amazing vehicles for yourself, visit Jaguar Land Rover Las Vegas for a test drive today.
