A Message from the General Manager

Celebrating Graduates for 50 Years

This month in Nevada tens of thousands of caps and gowns will be rented, thousands of auditoriums and stadiums will be decorated, and hundreds of graduation speeches will be delivered. Nearly every graduation speech will praise the hard work of the graduates, and celebrate the support of parents, teachers and family. In each of our 50 years, Vegas PBS has played a supporting role in these graduations.

On our first day of broadcasting in 1968, Vegas PBS provided early childhood school readiness programs like **Mr. Rogers Neighborhood** and **The Friendly Giant**. 50 years later, **Daniel Tiger's Neighborhood** plus **Sesame Street**, **Arthur**, **Dinosaur Train** and others fill this role. Today, children's programs are also offered on a separate 24-hour channel and are available for online streaming. They also include interactive games, mobile phone apps, books, and classroom workshop materials. Grants allowed Vegas PBS to conduct more than 800 parent engagement workshops that extended these programs and served nearly 185,000 parents and children last year.

Also in 1968 under the guidance of Clark County School District Assistant Superintendent – and future Nevada Governor – Kenny Guinn, Vegas PBS enlisted career and technical education students to produce daily live instructional classes in math, science, arts and culture, and foreign languages for broadcast on Channel 10. Today, Vegas PBS delivers online "digital learning objects" to homes and schools from a vast library of curriculum-indexed instructional media offerings for teachers in public, private, charter and home schools.

These materials received an astonishing 20 million statewide views last year.

We supported graduating adults as well. More than 3,600 adults earned an online high school diploma through our programs. Doctors, nurses, lawyers, and teachers completed more than 12,000 continuing education courses offered by Vegas PBS to maintain their professional certifications. These career and technical programs are vital to insuring a vibrant local economy with a well-trained workforce.

This effort will receive a big boost this year as we kickoff a multi-year national initiative on career and technical education. The Corporation for Public Broadcasting (CPB) awarded Vegas PBS over \$180,000 to support providers of technical education and career readiness in Southern Nevada. **The American Graduate: Getting to Work Initiative** will engage with community partners to assess middle-skill workforce challenges and opportunities and produce media content supporting the essential skills needed for students and workers ages 16 to 26.

From pre-school to career, Vegas PBS carries out our mission to "educate and empower people" in formal tuition-based partnerships with most of the degree-granting and certification authorities in Nevada. Your annual support funds the informal education programs on Channel 10 from news and public affairs, to science and history, or cooking and home repair. Despite dramatic changes in technology and viewing devices, our 50-year commitment to nonprofit, nonpartisan, noncommercial, education thrives because viewers like you become members. So in May, we celebrate you as a vital force behind all the graduates your investment in public television helped cross the stage this month.

Royal Wedding Watch

**Monday-Thursday, May 14-17 at 10 p.m.
Friday, May 18 at 10:30 p.m.**

Prince Harry

What is more exciting than a wedding — and a royal wedding to boot! Don't miss a minute of the fun and anticipation as Vegas PBS presents a five-part nightly series of special programs, culminating with the **live broadcast of the royal wedding on Saturday, May 19 at 4 a.m.** The series is hosted by American news anchor Meredith Vieira and British television presenter Matt Baker, who will update viewers on the preparations for the much-anticipated wedding of Prince Harry and American actress Meghan Markle.

During the week prior to the ceremony, which will occur in St. George's Chapel at Windsor, the hosts will be joined in-studio by experts, commentators and special guests. BBC presenter and host Anita Rani will report live from Windsor each night, and English historian Lucy Worsley, Joint Chief Curator at Historic Royal Palaces, will delve into the pageantry, pomp and protocol surrounding Harry and Meghan's nuptials.

The series will also showcase Britain's rich royal heritage and illuminate how history and tradition will influence the union of this modern couple. "From cakes to choristers, banquets to bouquets, gowns to crowns, viewers will get a fun and informative insider's briefing on royal etiquette, an unprecedented look at the elaborate planning, secrecy and care that goes into this royal wedding that has captured the imagination of people around the world," said Shawn Halford, PBS' Senior Director, Programming.

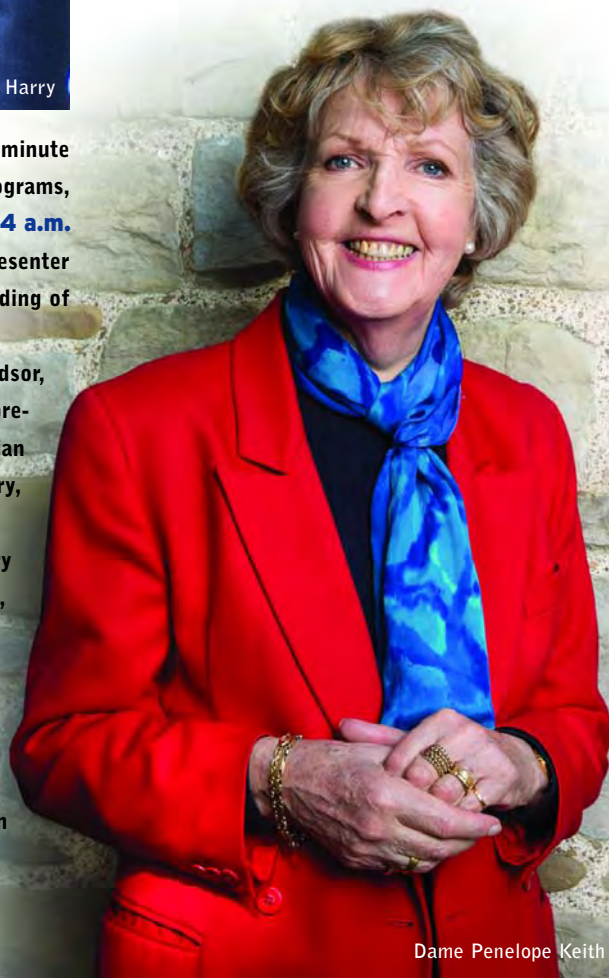

"Americans find the British royals incredibly fascinating, and Royal Wedding Watch is the ultimate backgrounder leading up to this historic moment when our American beauty marries her prince," Meredith Vieira said.

Together, they redefined the relationship Americans had with their government and with each other, and redefined, as well, the role of the United States within the wider world. The series encompasses all the history the Roosevelts helped to make. But it is also an intimate human story about love and betrayal, family feeling and personal courage, and the conquest of fear.

A Message from the Desert Meadows AHEC Coordinator

What's an AHEC and Why Is It a Service of Vegas PBS?

Cary Huddleston
Desert Meadows
AHEC Coordinator

I've been asked on many occasions, "What the heck is an AHEC?" I must admit, there was a time when I too had never heard of AHEC. You may have heard that Nevada ranks between 45–47 nationally in overall health, depending on which report you read. The health care system in Nevada has some common and unique challenges to overcome if we are to make lasting improvements to community health status and outcomes. One program that is striving to make a difference is Vegas PBS' Desert Meadows Area Health Education Center, or AHEC.

AHECs are created to help improve access to health care services for individuals who are underserved, uninsured, isolated or medically vulnerable. AHECs receive federal grant funding from the Health Resources and Services Administration (HRSA). AHECs are also strengthened by the National AHEC Organization (NAO), which provides invaluable support and advocacy for the overall AHEC network that includes more than 300 centers. As part of this national AHEC network, the Nevada AHEC program office located at the University of Nevada, Reno supports the AHECs in Nevada with the common mission to reach out to rural and urban areas with critical shortages of health care professionals. In addition, Nevada AHECs provide a bridge between academic health programs and the community in all seventeen Nevada counties. Vegas PBS and our partners are committed to helping educate and train a strong and diverse healthcare workforce in Southern Nevada.

Vegas PBS is recognized nationally for using television and other technologies to educate and empower individuals and to expand and amplify the effectiveness of community organizations. In the Fall of 2014, Vegas PBS leadership was approached by representatives from the HRSA, NAO, and Nevada AHEC about the opportunity to operate an AHEC as a service of Vegas PBS to serve southern Nevada including Clark, Esmeralda, Lincoln, Nye and White Pine counties.

In March 2015, Desert Meadows AHEC began operating as a service of Vegas PBS. Desert Meadows AHEC provides continuing education courses, outreach programs and special educational events or activities to promote healthcare worker expertise, career opportunity awareness, health fairs and activities to improve healthcare access for medically underserved communities. This outreach is done in collaboration with local health companies and agencies, all our private and public education institutions and other medical leaders throughout Southern Nevada.

Some of our most popular student career pipeline programs are the **Teen Education And Careers in Healthcare Workshops** (Grade 8-12), **College Engagement Series** (Grade 9-12), **Health Career Exploration Camp** (Grade 10-11), **CampMED** (Grade 8), **AHEC Scholars** and **AHEC Ambassador Interprofessional Educational** (collegiate students) and **Community Engagement Programs**. In addition, we've hosted health related preview screenings of PBS documentaries such as **The Brain with David Eagleman**, **Alzheimer's: Every Minute Counts**, and **Understanding the Opioid Epidemic**, which were all open to the public and included panel discussions with leading health care experts. Overall, Desert Meadows AHEC programs and activities have served more than 10,000 Nevadans.

If you or your organization would like more information about Desert Meadows AHEC programs or activities contact 702.799.0031 or email DesertMeadowsAHEC@VegasPBS.org.

“Nevada AHECs provide a bridge between academic health programs and the community in all seventeen Nevada counties.”

THIS WEEK'S PICKS

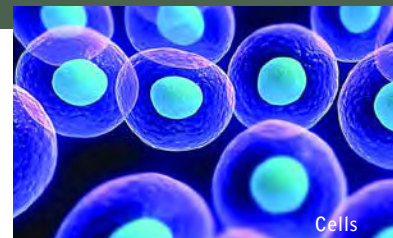

Group of resting soldiers

Dunkirk: Survival Thursday, May 3 at 10 p.m.

What happened at Dunkirk in May 1940 must go down as one of the greatest escapes of all time. A third of a million British soldiers were facing annihilation but just days later the majority had been rescued. In the final episode of this series tonight, Dunkirk has now become a siege town. While a large number of the Army has been evacuated, many tens of thousands still remain. The evacuation slows to a snail's pace as daylight sailing is suspended and the crews of the naval ships, who have been working for nine days without rest, are exhausted. When the British Expeditionary Force is finally evacuated, no provision can be made for the wounded. Some are left behind to face the Germans who arrive in Dunkirk on the same day as Churchill makes his now famous speech to the House of Commons vowing never to surrender.

NOVA Wonders: What's Living in You? Wednesday, May 2 at 9 p.m.

From what makes us fat, to what makes us fart, to what makes us freak out, there is a whole new paradigm for understanding how the human body works. We're more like an ecosystem with tons of microbes living in us and on us, with our human cells outnumbered by non-human bacteria, viruses and fungi. But not all bugs are detrimental or just nasty hitchhikers. Some are actually crucial to our survival and important players in our health. Evidence suggests that a damaged microbiome may contribute to obesity, allergies, even mental disorders. Throughout the hour, you'll see the fascinating, bizarre and the just plain gross. From the mites living on our faces to the bacteria in our guts, we are not alone...in our (not so) human body.

Bombshell: The Hedy Lamarr Story: American Masters

Friday, May 18 at 9 p.m.

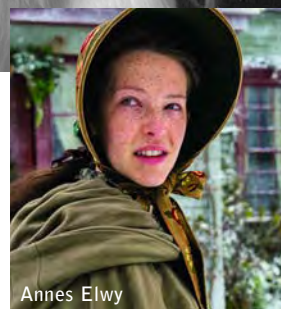

Hollywood star Hedy Lamarr was known as the world's most beautiful woman – Snow White and Cat Woman were both based on her iconic look. However, her arresting appearance and glamorous life stood in the way of her being given the credit she deserved as an ingenious inventor whose pioneering work helped revolutionize modern communication. An Austrian Jewish emigrant who invented a covert communication system to try to help defeat the Nazis, Lamarr was ignored and told to sell kisses for war bonds instead. It was only toward the very end of her life that tech pioneers discovered that it was her concept that is now used as the basis for secure WiFi, GPS and Bluetooth technologies.

Hedy Lamarr

Little Women on Masterpiece Sundays, May 13 and 20 at 8 p.m.

As engaging today as in 1868, Louisa May Alcott's novel follows sisters Jo (Maya Hawke), Meg (Willa Fitzgerald), Beth (Annes Elwy) and Amy (Kathryn Newton) who, together with Laurie (Jonah Hauer-King), journey to adulthood. The cast also includes Emily Watson, Angela Lansbury, Dylan Baker and Michael Gambon. Set against the backdrop of a country divided, the story follows the four March sisters on their journey from childhood to adulthood while their father is away at war. Under the guidance of their mother Marmee, the girls navigate what it means to be a young woman: from gender roles to sibling rivalry, first love, loss and marriage. The story is a celebration of family as much as it is a recognition of the challenges of growing up and forging an individual identity.

Nature: The World's Most Wanted Animal Wednesday, May 23 at 8 p.m.

Join conservationist Maria Diekmann in the crusade to save pangolins. Around 300 pangolins are poached every day, making them the most trafficked animal in the world. Also known as “scaly anteaters,” pangolins are prized for their meat, which is considered a delicacy in China and Vietnam, and their scales, which are used as ingredients in traditional Asian medicine. Learn about these little-known yet highly desired scaly mammals whose basic biology remains a mystery, hampering conservation efforts.

Great American Read Tuesday, May 22 at 8 p.m.

This new eight-part television competition and nationwide campaign explores the power of books and the joy of reading through the lens of America's 100 best-loved novels, as voted on by the public. Notable figures in the entertainment, sports, news and literary worlds lend their voices and passion, including Margaret Atwood, Lesley Stahl, Devon Kennard, Junot Díaz and many others, sharing their personal stories and connections to their favorite titles. The series launches with a two-hour special event. Over the course of 15 weeks in the summer, viewers can read and vote on favorite works of fiction; the series then returns in the fall with episodes exploring the nominated books through themes including “Heroes,” “Villains & Monsters,” “What We Do for Love,” “Other Worlds,” and will conclude with an exciting finale and countdown to “America's Best-Loved Book.”

Chinese Exclusion Act: American Experience

Tuesday, May 29 at 8 p.m.

On May 6th, 1882 – on the eve of the greatest wave of immigration in American history – President Chester A. Arthur signed into law a unique piece of federal legislation. Called the Chinese Exclusion Act, it singled out as never before a specific race and nationality for exclusion – making it illegal for Chinese workers to come to

America – and for Chinese nationals already here ever to become citizens of the United States. This new special explores in riveting detail this little known, yet deeply resonant and revealing episode in American history – one that sheds enormous light on key aspects of the history of American civil liberties, immigration and culture – during one of the most formative periods of U.S. history.

Queen Elizabeth's Secret Agents

Sunday, April 29 from 1 p.m. to 4 p.m.

Elizabeth I reigned from 1558–1603 during a period, often called the Elizabethan Age, when England asserted itself vigorously as a major European power in politics, commerce and the arts. This three-part series, aired back-to-back, uncovers the secret state that protected Queen Elizabeth from treason for over 40 years. Through the execution of Mary Queen

of Scots to the death of Queen Elizabeth, the capture of Catholic fugitive John Gerard and the infamous Gunpowder Plot. During a time when Britain was divided, unstable and violent, the world's first secret service was born. Run by William and Robert Cecil, this father and son team had the duty of protecting the Queen and the Country.

JACKPOT! SPOTLIGHT

Independent Lens: True Conviction

Sunday, May 6 at 9 p.m.

After serving a combined 60 years in prison for crimes they did not commit, three recently exonerated Texans — Christopher Scott, Johnnie Lindsey and Steven Phillips — join forces to form the unlikely of investigative teams, on a mission to help wrongfully convicted prisoners obtain freedom like they did. In this hardboiled yet rousing documentary, brotherly bonds are formed out of shared hardships — lengthy prison sentences in a state that executes more inmates than any other. Through tenacity, hope and determination these freedom fighters work together to rebuild broken lives and families as they campaign to fix the criminal justice system while still fighting demons of their own.

Johnnie Lindsey, Christopher Scott and Steven Phillips

WORLDVIEW SPOTLIGHT

Wataha Mondays at 6 p.m.

This new series is an intense six-part Polish thriller about a border patrol unit specializing in human trafficking cases. The Bieszczady Mountains straddle the border between Poland and Ukraine. It's a wild place full of frigid peaks, fairy-tale forests and raging rivers—along with a large security presence due to it being a major route for smuggling drugs, guns and people. After the group falls victim to a bomb attack, Captain Wiktor Rebrow (Leszek Lichota) is the lone survivor who sets out to hunt down those responsible and clear his name. The Guardian says, "The drama doesn't demonize or sanctify migrants, but focuses on the rivals fighting over them: the traders who see vulnerable humans as booty, and the unwilling host country for whom they are both a political problem and a propaganda opportunity." In Polish with English subtitles. **Repeats same days at 9 p.m.**

FRONTLINE: Blackout in Puerto Rico

Thursday, May 3 at 10 p.m.

Six months ago, Puerto Rico was ravaged by Hurricane Maria, and the U.S. territory is still struggling to recover from the strongest storm to hit the island in nearly a century. The storm caused an island-wide power outage and flooding, killed dozens of people and damaged or destroyed nearly 400,000 homes, resulting in an estimated \$100 billion in damage. This special investigates the ongoing humanitarian and economic crisis and examines how the federal response, Wall Street and years of neglect have left the island struggling to survive.
