A Message from the General Manager

Exploring Mental Health

Nothing is more central to public television than education. Decades of research confirms that the high-quality educational television, internet, classroom and workshop content created by PBS KIDS helps children build critical literacy, math and social-emotional skills that help them succeed in school and in life. Beyond children, what's truly unique about public service media is its commitment to provide inspiring lifelong learning for adults, with topics as diverse as cooking, history, science, travel, politics, art, architecture and personal health. Never shying away from difficult subjects or conversations, Vegas PBS will present several programs this month that examine mental health and brain health issues - both nationally and locally.

The critically acclaimed documentary **God Knows Where I Am** follows the story of a well-educated New Hampshire mother who battled severe bipolar disorder and homelessness until her heartbreaking death. Immediately after the film, a panel discussion examines how law enforcement, the medical establishment and the justice system treat the mentally ill.

Following that national discussion, Vegas PBS explores mental health issues in Southern Nevada with two back-to-back episodes from our new public affairs show, **Nevada Week: Mental Health Early Intervention** and **Nevada Week: Medicaid Changes to Mental Health**. Treating these patients, building an adequate social safety net and funding care for the uninsured is a major under-reported public health topic.

We also mark one year since the tragic events of One October with rebroadcasts of two local specials that celebrate our medical and first responders and addresses the ongoing need for accessible mental health resources and assistance for those experiencing emotional and financial distress from this civic trauma. **#VegasStrong: The Road Ahead**, **#VegasStrong: Mental Health and Money**, and extended "web extra" conversations with mental health experts will have multiple airings throughout the month and are available on demand on VegasPBS.org.

Three additional specials will investigate America's opioid epidemic and examine the science behind how these drugs affect the brain to cause addiction. You can read more about **NOVA: Addiction**, **FRONTLINE: Chasing Heroin**, **Understanding the Opioid Epidemic** and other mental health specials airing this month on page 17.

Our exploration of brain science will continue next month as we debut a new Vegas PBS documentary that chronicles the life of Lou Ruvo, an influential member of the Las Vegas hospitality industry. **Power of Love** tells the story of Lou's diagnosis with Alzheimer's disease and his subsequent treatment journey that would eventually lead to the creation of the Cleveland Clinic Lou Ruvo Center for Brain Health — one of the most advanced brain research and treatment facilities in the country. Our two organizations are joining forces to present a special preview screening event on November 1. Please see page 20 for event and ticket details. We hope you will join us.

From the self-affirming words for children of Fred Rogers and Daniel Tiger, to celebration of hopeful scientific breakthroughs at the Lou Ruvo Center, your membership support allows Vegas PBS to produce and air programs that help tell the story of mental illness, substance abuse, degenerative brain disease, and support for victims of trauma. We thank you for watching, engaging with policy makers, and continuing to help Vegas PBS lead an informed community dialogue on these topics.

Fall into Fabulous Drama

Throughout the Month

This month, we have all-new seasons of two of our most popular dramas, some intriguing new miniseries, along with our returning on-going series. This is going to be an exciting month for the best that television has to offer!

SUNDAY NIGHTS

Call the Midwife Season 4 at 7 p.m.

We are so looking forward to the new Season 8 of this beloved series next spring, but that seems so far away! In the meantime, we can enjoy some time with the nuns and nurses of Nonnatus House with an encore viewing of Season 4. The season begins in 1960, on the cusp of much change in London's East End. A new decade dawns, and with it come different and exciting challenges. Can the nuns and midwives hold onto their traditional values in a rapidly changing world? Important social issues are explored, including child neglect, mental health, homosexuality and a baby mix-up in the Maternity Home.

The Durrells in Corfu Season 3 on Masterpiece at 8 p.m. beginning September 30

This delightful series features the harried widowed mother of a brood of recalcitrant children. Louisa moves the floundering family from England to Corfu in the mid 1930s to recharge their lives — hers included. Hailed by *The Wall Street Journal* as “an island of charm,” the drama returns for a third season of eccentric family adventures on a Greek isle in the 1930s. Based on the memoirs of Gerald Durrell, the animal-loving youngest member of the clan, the series stars Keeley Hawes as

“...Ross Poldark must play the political game on a journey that takes him to the nation's capital...”

the plucky widowed mother, Louisa Durrell; Josh O'Connor as her eldest son, Lawrence, who is destined to become a famous novelist; Callum Woodhouse as the hapless sportsman, Leslie; Daisy Waterstone as the lovelorn teen, Margo; and Milo Parker as Gerald. The bohemian Durrells fit right in with the light-hearted Greeks — except when they disastrously don't.

Poldark Season 4 on Masterpiece at 9 p.m. beginning September 30

The many fans of this lush, swashbuckling drama have been waiting anxiously for the new season to begin! It's 1796, and to defend Cornwall and those he loves from an empowered George, Ross Poldark must play the political game on a journey that takes him to the nation's capital and into new perils. When last we saw Ross in Season 3, his marriage was on the rocks and he had his sights set on a new role in Westminster. The new season opens as the Prime Minister calls an election and uncertainty grips the country. Ross watches Cornwall suffer under the power of Truro's MP, George Warleggan, while Demelza remains caught between Ross and a lovesick Hugh. The Enyses contemplate having a child and Elizabeth seeks the same to secure her marriage. Morwenna uses Osborne's affair with her sister Rowella to keep the reverend's advances at bay. Sam and Drake are blamed for a murder, and Ross finds himself powerless to save his brothers-in-law.

My Mother and Other Strangers on Masterpiece on September 30 and October 7 at 10 p.m.

Set in Northern Ireland during World War II, the drama follows the fortunes of the Coyne family and their neighbors as they struggle to maintain a normal life after a huge United States airfield, with 4,000 service men and women, lands in the middle of their rural parish.

Hattie Morahan (*Sense and Sensibility*) stars as Englishwoman Rose Coyne, raising her daughters Emma and Kate, and son Francis in Northern Ireland during World War II. Owen McDonnell (*An Klondike*) is her loving husband Michael, a Northern Irishman who realizes he never lived up to her dreams. Aaron Staton (*Mad Men*) is Captain Dreyfuss, the honorable American officer who upends her life. The series concludes this month with two final episodes. Capt. Dreyfuss has a plan to thwart advances from Rose's sister, Vera. Emma gets man advice, while Rose and the

captain get more serious. Then in the series finale, an unwelcome note leads to a disastrous meeting and Tillie tries to stop the captain and Rose from a terrible mistake.

The Woman in White at 10 p.m. beginning October 21

Walter Hartright (Ben Hardy) encounters a ghostly woman dressed all in white on a moonlit road and is drawn into a web of intrigue that will transform his life forever. Offering his assistance to this distressed, spectral woman, he is later shocked to discover that she had just escaped from a nearby insane asylum and he returns to the town that cast her out to seek answers. Walter takes up the post of teacher in the small village of Limmeridge where he falls in love with one of his students, Laura (Olivia Vinall). The only problem is that she is betrothed to Sir Percival Glyde (Dougray Scott) who harbors sinister secrets about the mysterious woman

in white. The young woman pleads in her opening salvo, "How is it that men crush women time and time again and go unpunished?" The series is a thrilling, intense mixture of suspense and mystery.

There is no need to wait for Sundays to enjoy your favorite dramas – we have you covered throughout the week!

Jamestown at 10 p.m.

(2 episodes per night beginning October 20)

Jamestown is an all-new dramatic series from the producers of **Downton Abbey**. In 1619, a new governor arrives in Virginia bearing revolutionary plans for the colony. With him arrive a group of women, destined to marry the beleaguered men. Among them are the sophisticated courtier Jocelyn Woodbryg, farm girl Alice Kett and streetwise Verity Bridges. The three courageous, dynamic women have decided to leave their dark pasts behind in England and make the journey of a lifetime across the ocean for a new life in 17th century America. Duty bound to marry the three men who have paid for their passage to the New World, they have little idea of what the future holds or the disruption their arrival is about to bring. Twisting storylines follow the new arrivals as they make an immediate impact and are thrust into a new world of love, desire, power and survival. While love triangles, bitter rivalries and fierce competition cause conflict for the residents, ultimately, they are bound together by their resolute will to survive and thrive in their new lives.

Ben Franklin's Bones

October 3 at 11 p.m.

When skeletal remains of at least 10 people, including several infants, turned up in the basement of Benjamin Franklin's British residence, people wondered if the Founding Father might have had a much darker side, as the bones had been meticulously cut and drilled. Franklin was aware of the bodies in his basement, but they weren't the victims of violent acts. Rather, they were used for the purposes of an illegal anatomy school that helped shape modern medicine.

Jamestown's Dark Winter

October 17 at 11 p.m.

Jamestown, Virginia, was the site of the first permanent English colony settled in America, in 1607. It has been speculated that during the "starving time," they may have been desperate enough to participate in the unthinkable. Forensic anthropologists investigate the recently found mutilated skull and severed leg of a 14-year-old English girl dating back to 1609. What can these bones tell us about what really happened at Jamestown?

The Real Trojan Horse

October 24 at 11 p.m.

It was the ultimate sneak attack, bringing a city that had withstood nine years of battle to its knees. But was it simply a work of fiction? Or did the Greeks really trick the Trojans into defeat with a giant wooden horse that concealed enough soldiers to reduce the powerful city to rubble? Are the city of Troy and the familiar story of the Trojan War — as recounted in Homer's ancient Greek epic poem, the *Iliad* — fact or fiction?

The Quietest Place on Earth

Exploring America's Past

Throughout October

The Circus: American Experience

Monday and Tuesday, October 8 and 9 at 9 p.m.

Explore the colorful history of this popular American form of entertainment, in an era when its stars were among the most famous people in the world and multitudes gathered to see the improbable and the impossible, the exotic and the spectacular.

Great Old Amusement Parks

Monday, October 8 at 11 p.m.

Long before giant theme parks and computer-controlled thrill rides, this country had lots of charming and beautiful amusement parks where

families gathered. This special celebrates some of the pre-Disney parks that are still thriving as well as a few of the classic parks that are gone.

Eugenics Crusade: American Experience

Tuesday, October 16 at 9 p.m.

Discover the story of the unlikely — and largely unknown — project to breed a better American race, tracing the rise of a movement that turned a scientific theory of heredity into a powerful instrument of social control. The goal of the movement was simple and, to its disciples, laudable: to eradicate social ills by limiting the number of those considered to be genetically “unfit.”

“The goal of the movement was simple and, to its disciples, laudable: to eradicate social ills...”

NOVA: Addiction

Examining Mental Health Issues

Throughout October

The burden of mental illness and addiction in the United States affects millions of people, disrupting interpersonal relationships and the ability to live full and productive lives. This month, we are airing several programs to help foster understanding and solutions.

God Knows Where I Am **Monday, October 15 at 9 p.m.**

On May 3, 2008, the body of a homeless woman was found in an abandoned New Hampshire home. A journal found beside the body documents a journey of starvation and the loss of sanity with poignancy, humor and spirituality. This is the story of Linda Bishop, a well-educated New Hampshire mother diagnosed with severe bipolar disorder with psychosis, who was intermittently incarcerated and homeless. Through interviews with family, friends and medical and legal professionals involved with Bishop's case, as well as readings from Bishop's journal, the documentary traces the events leading up to Bishop's hospitalization and investigates the final months of her life following her discharge. These intimate accounts of Bishop's experience raise questions about society's treatment of people with mental health conditions. **Repeats Wednesday, October 17 at 2:30 p.m.**

Nevada Week: Mental Health Early Intervention **Monday, October 15 at 11 p.m.**

Mental illness is treatable, but early identification and treatment are of vital importance. Recovery is accelerated and the further harm related to the course of illness is minimized. This episode examines early intervention efforts in Nevada. **Repeats Wednesday, October 17 at 4:30 p.m.**

“Mental illness is treatable, but early identification and treatment are of vital importance.”

Nevada Week: Medicaid Changes to Mental Health **Monday, October 15 at 11:30 p.m.**

Nevada ranks 51st in mental health care, and Medicaid is the single largest payer for mental health services in the United States. This episode examines recent changes made to the Medicaid approval process and what that means to patients in our state. **Repeats Wednesday, October 17 at 5 p.m.**

NOVA: Addiction **Wednesday, October 17 at 9 p.m.**

This special joins scientists and sufferers alike as they probe the mysteries of addiction. They are discovering that addiction is not simply a lack of willpower; drug abuse produces significant chemical changes in the brain...changes that are hard to control, and hard to reverse. And it is not just drugs... alcohol, sugar, caffeine, even exercise can incite addictive behaviors. Delve into America's opioid crisis — in a world in which many other diseases can be traced to addictive behavior, how do addictions work, and what can the science of addiction tell us about how we can resolve this dire social issue?

Repeats Friday, October 19 at 2:30 p.m.

FRONTLINE: Chasing Heroin **Friday, October 19 at 3:30 p.m.**

Facing a heroin epidemic, America is experimenting with radical new approaches to the drug problem. Following four addicts in Seattle, examine U.S. drug policy and what happens when heroin is treated like a public health crisis, not a crime.

Understanding the Opioid Epidemic

Sunday, October 21 at 11 p.m.

This important special traces the causes behind the unprecedented growth in the use of prescription opioids and the devastating impact these drugs are having on our country. It captures the story of the opioid crisis through personal stories of people and communities impacted, along with information from experts and those at the frontlines of dealing with the epidemic. The program will trace the history of how the nation got into this situation and provide possible solutions and directions for dealing with the crisis.

Best of Sewing with Nancy

Saturdays at 6:30 a.m., beginning October 20

Nancy Zieman became an unlikely television star through the humblest of shows, **Sewing With Nancy**, which became the longest-airing sewing series on television. She died on November 14, 2017, at her home in Beaver Dam, Wisconsin, at the age of 64. Nancy and her guests shared their love of the sewing arts by exploring the latest ideas in one of the country's most popular crafts. Initially, the programs were videotaped in Nancy's living room with a camera crew of one person and long 13-hour taping days. In the early years, Nancy ran a one-woman show developing the scripts, sewing the samples and taping the programs.

In her memory, we are honored to schedule **Best of Sewing With Nancy**. In a two-part episode this month, Nancy and guest Joan Hinds demonstrate a streamlined way to sew 18" doll clothes. You'll learn techniques on how to avoid underarm seams by sewing a continuous yoke, update a basic jumper with a clever ribbon layout and get a finished look easier by lining small pieces. Create 21 doll clothes to mix and match. Best of all, with a little sewing know-how, each component can be cut and sewn in 30 minutes or less.

A Message from the Content Director

Exceptional Programming, Exceptional Ratings

The TV ratings season ended on September 19, and your viewership helped Vegas PBS place in the top ranks for all three of our measured channels. Vegas PBS' Channel 10, Create and VEGAS PBS KIDS ended the season in the top 3 among all the overnight TV markets for whole day viewing. This issue of the magazine will go to print before all the final numbers will be confirmed, but it looks like we will either be #1 or #2 on Channel 10, #1 on Create, and #2 on PBS KIDS.

The national program schedule from PBS gave you many reasons to tune in. Dramas like **Victoria on Masterpiece**, **Poldark** and **The Durrells in Corfu** were among the most-watched drama titles on Channel 10. Brand new seasons of **Poldark** and **The Durrells in Corfu** begin on Sunday, September 30 and continue throughout the month of October, and **Victoria's** new season will come in early 2019. Monday's **Antiques Roadshow** also made the list, along with historical titles in Tuesday's lineup, which included **Ken Burns' Vietnam War**. **Impossible Builds** was fascinating to watch on Wednesdays, alongside **NOVA** episodes like **First Face of America**, **Prediction by the Numbers**, **Killer Volcanoes** and **Killer Floods**, which kept you captivated. **Nature's** most-watched titles this past season included **Fox Tales** and **Leave It To Beavers**. Many of these titles are still available for you to watch in Vegas PBS Passport, which is available to members who donate \$60 or more each year. If you haven't yet signed up for your account to access titles on demand, you might want to consider it as it will expand your viewing opportunities.

Member dollars were also spent on popular titles that were not included in the PBS national offerings listed above. **Midsomer Murders**, **Death in Paradise** and **The Coroner** rose to the top, thanks to our loyal Saturday night viewers. We tried an Australian drama (more of a soap opera, really) on Sunday afternoons, and viewers fell in love with the sometimes-over-the-top storylines in **A Place to Call Home**.

This fall we will determine what new titles we will purchase for the year ahead. Member dollars are critical to Vegas PBS having a healthy acquisitions budget, which allow us to purchase titles like **The Doctor Blake Mysteries** and **Doc Martin**, which I hope you've discovered on Thursday nights. We are optimistic that the new season of **Doc Martin** will finally become available for us to purchase and schedule in early 2019.

If you have program suggestions for us, we welcome your requests. While we can't accommodate them all, we do appreciate having the opportunity to research new titles and learn about the shows that are important to you. You are at the heart of every decision we make, and we thank you for helping keep our services available to everyone in our community.

“Member dollars were also spent on popular titles that were not included in the PBS national offerings listed above.”

Your vote can be bought, but at what cost? This timely special follows local Montana journalist John S. Adams, who is determined to uncover the truth about funding in his state's elections. The film gains insights over the course of three election cycles as it solves an increasingly complicated and blurred puzzle, tracing Adams' steps and shedding light on the grassroots movement to unveil the mysterious financing behind our elections. "Dark money is the advertising where you don't know who's paying for the ads," said Llew Jones, a Montana state senator. "We've just simply got to hold these up and say, 'Who is paying for this? What are they attempting to buy?'" The film draws parallels between the local influence of dark money in Montana and the effects of corporate political spending on a national scale.

Virunga volcano, Rwanda

NOVA: Volatile Earth

Wednesday, October 10 from 9 p.m. to 11 p.m.

The Virunga mountains in the Democratic Republic of Congo are home to two of the most dangerous, spectacular and least understood volcanoes in the world. In this one-night, two-part special, an intrepid international team of volcano experts climb up to their summits, perilously close to their gigantic craters. In **Volcano on Fire**, they deploy innovative imaging and remote sensing techniques, seeking clues to the forces at work deep beneath the volcanoes that are splitting East Africa apart, hoping to predict when the next devastating eruptions could occur. Then, **Volcano on the Brink** explores one of the world's most active and mysterious volcanoes in central Africa: Nyamuragira. Learn what feeds it frequent eruptions and see the region's other hidden, life-threatening volcanic dangers.

Shakespeare Uncovered

Fridays, October 12 - 26 at 9 p.m. and 10 p.m. (9:30 and 10:30 p.m. on October 19)

The fascinating history behind Shakespeare's greatest plays continues in an all-new third season, with two episodes airing back-to-back. The hosts include Helen Hunt, F. Murray Abraham, Romola Garai, Brian Cox, Simon Russell Beale and Sir Antony Sher, who seamlessly weave their personal passions with history, biography, iconic performances and new analysis to tell the stories behind the stories of Shakespeare's famous works. The season investigates *Much Ado About Nothing*, *The Merchant of Venice*, *Measure for Measure*, *Julius Caesar*, *The Winter's Tale* and *Richard III*. Each episode reveals the extraordinary world of William Shakespeare and the still-potent impact his plays have today. The films combine interviews with actors, directors and scholars, along with visits to key locations and clips from some of the most celebrated film and television adaptations.

THIS WEEK'S PICKS

Itzhak Perlman: American Masters

Sunday, October 14 at 10 p.m.

From Schubert to Strauss, Bach to Brahms, Mozart to...Billy Joel, Itzhak Perlman's violin playing transcends mere performance to evoke the celebrations and struggles of real life. This documentary provides an intimate look at the remarkable life and career of this musician, widely considered the world's greatest violinist. The film looks beyond the 16-time Grammy-winning musician to see the polio survivor whose parents emigrated from Poland to Israel, and the young man who struggled to be taken seriously as a music student when schools saw only his disability. In the film, Perlman's life story unfolds through conversations with fellow musicians and friends, including Billy Joel, Alan Alda, pianist Martha Argerich, cellist Mischa Maisky, and his wife of 50 years, Toby, providing a portrait of musical virtuosity.

God Knows Where I Am

Monday, October 15 at 9 p.m.

The body of a homeless woman is found in an abandoned New Hampshire farmhouse. Beside the body lies a diary that documents a journey of starvation and the loss of sanity, but told with poignance, beauty, humor and spirituality. For nearly four months, Linda Bishop, a prisoner of her own mind, survived on apples and rain water, waiting for God to save her, during one of the coldest winters on record. As her story unfolds from different perspectives, including her own, we learn about our systemic failure to protect those who cannot protect themselves. During October, we are also airing several new programs dealing with the difficult topics of mental health and addiction. Please see page 17 for details on these specials.

Nature: Super Cats, A Nature Miniseries: Extreme Lives

Wednesday, October 24 at 8 p.m.

Meet the planet's ultimate cats. Cheetahs are the fastest animal on land. A snow leopard searches for a mate in the Himalayas. The Canada lynx lives farther north than any cat. An African leopard fights to raise a cub in the worst drought in decades. Then next week on Wednesday, October 31 at 8 p.m., don't miss part two of the series. In **Cats in Every Corner**, discover how cats have conquered the world, thriving in almost every landscape on Earth, from fishing cats in the wetlands of Asia, to a pregnant jaguar in Costa Rica, to margays in Central American treetops, to a swamp tiger on the Indian shore.

Native America: From Caves to Cosmos Tuesday, October 23 at 9 p.m.

Recent discoveries informed by Native American oral histories have led to a bold new perspective on North and South America — that through social networks spanning two continents, ancient peoples shared a foundational belief system with a diversity of cultural expressions.

This and other research is leading to revelations that will forever change how we understand Native America. The series explores Great Nations and reveals cities, sacred stories and history long hidden in plain sight. Explore part one of this fascinating four-part series, which combines ancient wisdom and modern science to answer a 15,000-year-old question: who were America's First Peoples? The answer hides in Amazonian cave paintings, Mexican burial chambers, New Mexico's Chaco Canyon and waves off California's coast.

Settle into your favorite chair with tea and crumpets and enjoy this phenomenal drama from the very beginning through all six seasons! The award-winning series spans 12 years of gripping drama centered on a great English estate on the cusp of a vanishing way of life. Local Stories of Service

Sundays at 5 p.m.

Many of our men and women answered the call when our country was at war. We remember their stories and sacrifices with two local productions. On **October 14, Remembering Vietnam: Las Vegas Veterans** explores the experiences of several Las Vegas veterans during the Vietnam War era. Their stories cover

their enlistment, basic training, combat and the aftermath of their military experience. Then **The Greatest Generation Goes to War: Las Vegas Memories of WWII** airs **Part 1 on October 21** and **Part 2 on October 28**. Las Vegas was a city of just over 8,000 residents, and it was just as much engulfed in battle as

the rest of the world. This program tells the tales of veterans all over the world that now reside in Las Vegas, as well as stories of people who lived in our city during the time that war took over our country.

Food Flirts

**Wednesdays and Sundays
at 7 p.m. beginning October 17**

Meet the Brass Sisters, a.k.a. The Food Flirts! These two passionate food explorers of a certain age are on a mission to tackle their culinary bucket list ... one bite at a time! As they explain, "We are two roundish women in our seventies who have a combined total of 128 years of home baking and cooking experience. We have always felt comfortable in the kitchen because we learned to bake and cook at a very early age." In each delightful episode, the ladies "flirt" their way into chefs' kitchens to discover two ethnically unique and delicious delights, then head home to experiment and create cross-cultural culinary mash-ups to tantalize your taste-buds! Food, fun, flirting and friendship are always on the menu!

Yellow River, China

REWIND SPOTLIGHT

The Story of China

Mondays, October 1-15 from 6 p.m. - 8 p.m.

This series, written and presented by historian Michael Wood, explores the history of the world's oldest continuous state, from the ancient past to the present day. Journey with Wood along the Silk Route and across the plain of the Yellow River, where Chinese civilization began. Wood meets people from all walks of life, visiting China's most evocative landscapes and exploring ancient cities like Xi'an, Nanjing and Hangzhou. He traces some of the great moments in Chinese history — from their extraordinary voyages of exploration before Columbus, to amazing scientific inventions before the European Renaissance. Full of unexpected surprises, this grand sweep narrative shows how the Chinese created their own distinctive vision of the world: a vision that is still alive in the 21st century.

WORLDVIEW SPOTLIGHT

Death of a Pilgrim

Mondays, October 15 and 22 from 6 p.m. - 8 p.m.

The assassination of Prime Minister Olof Palme in 1986 marked a watershed moment in the history of Swedish democracy. Although a suspect was quickly arrested and convicted, he was just as quickly acquitted on appeal. The case remains unsolved and to date has yielded more conspiracy theories than the Kennedy assassination. But what really happened? Why did Palme suddenly dismiss his security detail and go to the movies with his wife unguarded? More importantly, who knew about this seemingly spontaneous decision — and what was the killer's motive? This two-night miniseries is a plausible and compelling version of events that may have led to the assassination. Rolf Lassgård stars as Lars Martin Johansson, leader of a new investigation into the notorious 1986 murder. **In Swedish with English subtitles. Repeats same days from 9 p.m. - 11p.m.**

Carnival of Souls

JACKPOT! SPOTLIGHT

Halloween Horrorfest!

Sundays, October 14-28 at Noon

Celebrate the spirit of Halloween with these four spine-tingling tales. The fright begins with **Carnival of Souls** on **October 14**. Wandering into a small town after an auto accident, a young woman is drawn to a mysterious abandoned carnival. Then on **October 21**, **Horror Express** takes you to 1906, where a British anthropologist discovers a frozen prehistoric creature in China. The creature escapes on the train bound for Europe, where it terrorizes and kills the passengers. **Following at 1:30 p.m., Horror Hotel** tells the tale of a young coed who goes to New England to write a paper on witchcraft, staying in a small inn called the Raven's Inn. There, she discovers that she is marked for sacrifice. Then we end with the classic **Night of the Living Dead** on **October 28**. There is panic as the dead suddenly come back to life. One group barricade themselves in an old farmhouse, trying to remain safe from these flesh-eating monsters.
