## A Message from the General Manager

### The New Nevada Week

Today there is no shortage of news. It's on demand, on every corner, online and on our phones. Often it merges reporting with commentary designed to create emotion and generate passion. At PBS and Vegas PBS, we seek to provide programs that provide insight, perspective and respectful disagreement. Meaningful community solutions require mutual respect, thoughtful and engaging perspectives, fact-based content, conversations and experiences delivered with warmth and humanity.

For more than 50 years you have welcomed us into your homes, tuning in for stories with meaning. And for 34 of those years, many of you tuned in to Vegas PBS for a recap of the week's top news stories on **Nevada Week in Review**. After a three-year hiatus, we are pleased to announce the return of this weekly public affairs show on Vegas PBS.

**Nevada Week** is a weekly half-hour public affairs program that explores and examines current and emerging local issues critical to Nevada with the people who have researched the topic and have perspectives or responsibility for finding solutions. It builds on the success of **Nevada Week in Review**, but with a future-focused, forward-looking approach.

In a media landscape full of pundits, **Nevada Week** will provide a non-partisan, non-sectarian, non-commercial exploration of the issues facing Nevada. We will go beyond breaking news, headlines, tweets and hot topics to cover a wide range of important issues such as health, water, transportation, arts and culture, education, economic development, family income, social services, economics and of course politics.

Instead of simply discussing critical issues, the show's intention is to inform and empower those viewers who want to make informed votes or take personal action to drive the future. Our goal is to inspire, connect and strengthen a community that is curious and enthusiastic about issues and ideas that matter, and to increase civic engagement based on fact-based information for the improvement of our community.

**Nevada Week** will be hosted by long-time television news anchor Casey Smith. Casey has served as an anchor and reporter for The NOW Report, KTNV and KLAS in Las Vegas as well as local news programs in California and Wyoming. As a well-respected and accomplished news anchor and long-time Nevada resident, Casey brings with him a depth of knowledge of the issues facing Nevada and a thoroughness that informs his work. He will be an immediate asset to the show, our viewers, and to Vegas PBS.

Funding issues are always a reality when launching, or continuing, any local production. We are able to bring back local public affairs programming now because of generous support from corporate sponsorship partners and from members like you. We hope you will tune in **Tuesdays at 7:30 p.m. beginning July 10** for the new **Nevada Week**.

# Summer of Adventure

Throughout July

St. Louis, Missouri

Lincoln Memorial, Washington DC

*Be transported on an around-the-world adventure this summer with the PBS Summer of Adventure! With a variety of science, nature and history programs, you will visit some of the world's most amazing places and cultures. The month kicks off with 10 That Changed America. Host Geoffrey Baer takes viewers across the country to the legendary streets, monuments and modern marvels that changed our country. Come join the expedition — we are saving a seat for you!*

## 10 Streets That Changed America

**Tuesday, July 10 at 8 p.m.**

Discover how streets have connected the nation, divided communities and changed the way Americans live, work and shop. Trace Broadway's 400-year evolution: from Native American trails to Dutch trading routes to the home of America's first public transit service and an electrically-lighted theater district known as the "Great White Way."

Ride from Boston to New York on the Boston Post Road, a dirt "highway" created for the nation's first mail carriers. Take America's

oldest streetcar line out to some of the nation's first suburbs in New Orleans, and in Detroit, drive a Model T along America's first mile of concrete paved road. Explore a car-friendly street created by a 1920s entrepreneur who predicted that Los Angeles would be dominated by the automobile, and take a horse and carriage ride on a Brooklyn parkway built on the proposition that streets should be scenic. Travel down the Lincoln Highway from New York to San Francisco. This cross-country road, which began as a PR stunt dreamed up by a car salesman, laid the groundwork for America's love affair with the road trip.

“Explore the stories behind ten American monuments...”

## 10 Monuments That Changed America

**Tuesday, July 17 at 8 p.m.**

Explore the stories behind ten American monuments and the historical moments that inspired them. Visit little-known locations like the Robert Gould Shaw and Massachusetts 54th Regiment Memorial, a sculptural masterpiece dedicated to one of the first African-American units to serve in the Civil War, and learn the surprising stories behind American icons like the Statue of Liberty, which was devised as a propaganda piece by French republican politicians. One episode is full of epic battles fought over how to remember our past: from Maya Lin's controversial design for the Vietnam Veterans Memorial to the ongoing controversies over Confederate monuments across the South. You will also learn the stories of such sites as the Lincoln Memorial, Mount Rushmore, the St. Louis Gateway Arch, the AIDS Memorial Quilt and the Oklahoma National Memorial.

## 10 Modern Marvels That Changed America

**Tuesday, July 24 at 8 p.m.**

Celebrate those who have scoffed at the laws of nature and defied the naysayers — and sometimes even gravity — by undertaking these fantastic feats of engineering. Each story includes a fun physics lesson and a tale of human folly, beginning at the Erie Canal, a 363-mile long man-made waterway that was built in the 19th

century by thousands of laborers using primitive hand tools. The Holland Tunnel in New York was the first underwater tunnel for cars and the engineers had to solve a seemingly impossible, life-or-death challenge: build a tunnel with enough ventilation to prevent it from becoming a deadly gas chamber. Discover the complex negotiations that went into the creation of the Transcontinental Railroad. Plans for the Interstate Highway System came to fruition under President Eisenhower, who had seen the value of good roads as he led troops through Germany during WWII.

And don't miss the episode on July 24 that features Hoover Dam right here in Southern Nevada. It was designed to do the impossible: stop the mighty Colorado River dead in its tracks and provide water and power for the growing cities of Southern California.

## **10 Homes That Changed America**

**Tuesday, July 31 at 8 p.m.**

This episode highlights ten homes that transformed residential living, from grand estates such as Thomas Jefferson's Monticello and Frank Lloyd Wright's Fallingwater, to the pueblos of Taos, New Mexico, and the tenements of 19th century New York. Featuring interviews with architecture critic Paul Goldberger, historian Peter Onuf, and others, the program offers a primer in residential architecture and a fasci-

nating lesson in the history of American domestic life, as the evolving design of these homes over time reveals our changing relationship with nature, technology and each other. Some of the other homes visited are Lyndhurst in Tarrytown, New York (1842); The Gamble House in Pasadena, California (1908); Langston Terrace Dwellings in Washington, D.C. (1938); and Glidehouse in Novato, California (2004).

## **No Passport Required**

**Tuesdays at 9 p.m. beginning July 10**

In this new series, internationally renowned chef Marcus Samuelsson celebrates America's diverse cultural mosaic as he travels to under-explored parts of American cities to showcase the people, places and culinary flavors of immigrant communities. Chef Samuelsson embodies America's extraordinarily rich cultural diversity. Born in Ethiopia, he was raised in Sweden and is a proud resident of Harlem.

Follow Samuelsson as he explores the best global cuisine hidden in American cities, including the Arab-American community in Detroit, the Vietnamese-American residents in New Orleans, the Indo-Guyanese community in the New York City borough of Queens, Chicago's Mexican population, the Ethiopian communities of Washington, D.C. and the Haitian community in Miami.

## **Andes July 25**

In the world's longest mountain range, pumas hunt guanaco, shape-shifting frogs hide in remote cloud forests and the descendants of Inca build bridges of grass.

# Drama at Its Finest

Throughout July

Shaun Evans in **Endeavour** Season 5 on Masterpiece

## Burton and Taylor

**Sunday, July 1 at 6:30 p.m.**

Starring Helena Bonham Carter and Dominic West, this captivating drama tells the tale of Hollywood's original "it" couple in the twilight of their star-crossed relationship. When Elizabeth Taylor and Richard Burton met on the set of *Cleopatra*, the attraction was immediate. The public was enthralled by their illicit romance, two tempestuous marriages, frequent break-ups and extravagant reunions.

The special tells the nostalgic, bittersweet tale of Hollywood's most glamorous couple as they acted together for the last time in Noel Coward's play, "Private Lives," in 1983. During the tour public speculation grew about the possibility of another marriage, but in private, old frictions played out once again. Beyond the alcohol, pills and the trappings of fame, was love the ultimate crutch that allowed them to escape the realities of their extraordinary lives?

## Maigret

**Sundays at 6:30 p.m. beginning July 8**

Globally renowned actor Rowan Atkinson stars as Georges Simenon's legendary Detective Maigret in these two gripping crime stories set in 1950s Paris.

**“The newspapers are rife with speculation. And Chief Superintendent Maigret is without a lead...”**

Helena Bonham Carter and Dominic West in **Burton and Taylor**

**July 8**

A serial killer is stalking the streets. Five women are dead and people are afraid to go out after dark. The newspapers are rife with speculation. And Chief Superintendent Maigret is without a lead and under great pressure. The detective risks everything — his career, his reputation and even his colleagues' lives — to find the culprit.

**July 15**

This mystery focuses on the murder of a gambler with connections to a brutal gang from Czechoslovakia whose members are robbing and killing wealthy Parisians.

**July 22**

Maigret interrogates suspected murderer Carl Andersen for hours. But despite his best efforts, Andersen's story never slips — he

insists he's innocent. So why was the body of a diamond dealer found on his property, in his car, killed with his gun? And why did he and his mysterious sister Else try to run away?

**July 29**

Arlette, a stripper from one of the area's seedy nightclubs, reports a conversation she overheard about an imminent murder. But it's not until Arlette is found strangled that her report is taken seriously.

**Poldark, Season 2**  
**on Masterpiece**  
**Sundays 8 p.m.**

Neither pestilence, starvation nor betrayal can stop Ross Poldark from fighting for justice in his native Cornwall. Against the breathtaking backdrop of 18th century Cornwall, Aidan Turner (Poldark), Eleanor Tomlinson (Demelza) and Heida Reed (Elizabeth) return as the complicated love triangle in the popular romantic saga, based on the novels by Winston Graham.

**Endeavour Season 5**  
**on Masterpiece**  
**Sundays at 9 p.m.**

Shaun Evans returns for a fifth season of the popular series as the young Endeavour Morse, before his signature red Jaguar but with his deductive powers already running in high gear. Roger Allam also returns as Endeavour's mentor, D.I. Fred Thursday, for more crime-solving in 1960s Oxford.

**July 1**

Hollywood glamour comes to Oxford as a movie begins filming in the city.

**July 8**

Morse investigates a disappearance, fearing that it's linked to an unsolved murder from years ago.

**July 15**

A photoshoot on an army base turns sinister when a model is found dead.

**July 22**

The investigation of an attempted assassination is quickly brought to an unexpected end.

**July 29**

After a teacher mysteriously disappears, Endeavour investigates the dark world of a public school.

**The Tunnel: Vengeance,**  
**Season 3**  
**Sundays at 10:30 p.m.**

Don't miss the third and emotional final season of the critically acclaimed bilingual crime thriller. The series reunites Stephen Dillane ("Game of Thrones") in his International Emmy® Award-winning role as Karl Roebuck with Clémence Poésy ("Harry Potter and the Deathly Hallows: Part II") as Elise Wassermann for the last outing of this beloved and unlikely Anglo-French partnership.

The investigative pair takes on a toxic and terrifying folie à deux whose mutual defining quality is an existential death wish. When the question posed by the couple — what is a life worth? — is directed straight back at Karl, he is forced to confront an utterly impossible choice that will haunt the audience long after the closing credits. Set amidst mid-Brexit mys-

teria, the series tackles an escalating refugee crisis and examines the increasing threat of terror occasioned by disenfranchised, exiled souls on whom society has turned its back.

**Midsomer Murders, Season 5**  
**Saturdays at 7:30 p.m.**

Season 5 brings all-new episodes, taking us back to before we started it on Vegas PBS! Set in the deceptively idyllic fictional English county of Midsomer, the suspenseful drama is based on the popular novels of Caroline Graham. Featuring an eccentric cast of characters, ubiquitous red herrings and quaint countryside scenery, this long-running crime series recalls classic public television British mysteries of the past. At the heart of the show is the perceptive and meticulous criminal investigator Detective Chief Inspector Tom Barnaby (John Nettles — Bergerac; "The Channel Islands at War").

# Powering Our Future

Nevada is already a national leader in renewable energy, and NV Energy has enough to power more than a million homes at once.

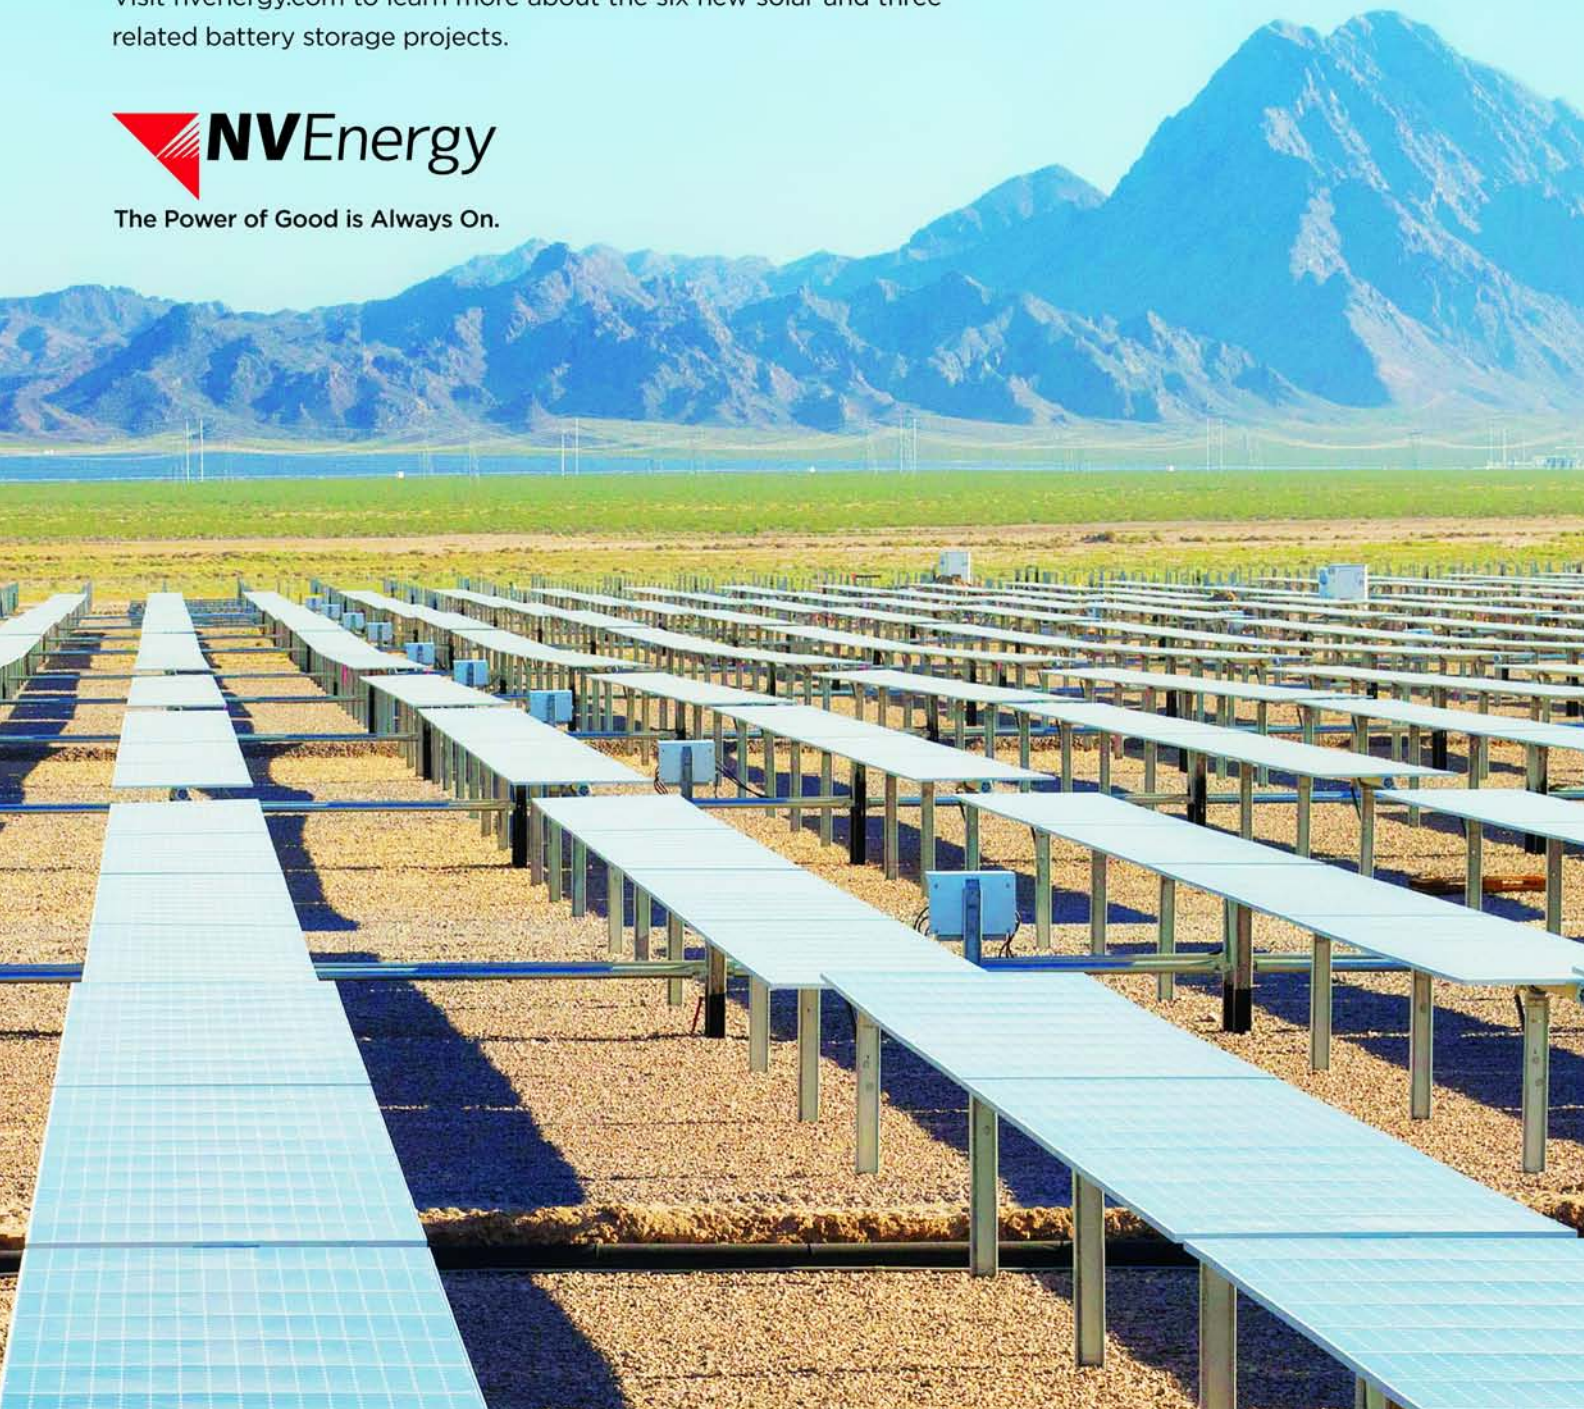

**But we won't stop there.**

In what is the largest clean energy investment in our state's history, NV Energy has contracted for more than 1,000 megawatts of new solar energy and, for the first time, 100 megawatts of battery energy storage. That's enough for another 600,000 typical Nevada homes.

Visit [nvenergy.com](http://nvenergy.com) to learn more about the six new solar and three related battery storage projects.

# Stories of War and Peace

Throughout the Month

## The Civil War

**Mondays at 10 p.m. through July 16**

This epic nine-episode series by the award-winning documentary filmmaker Ken Burns continues this month. Heralded as an unforgettable introduction to a four-year conflict fought in 10,000 places, the film vividly embraces the entire sweep of the war: the complex causes and lasting effects, the battles and the home fronts, the generals and the private soldiers, the anguish of death in battle and the grief of families at home.

## Civilizations: What is Art Good For?

**Tuesday, July 3 at 8 p.m.**

Survey the history of art, from antiquity to the present, on a global scale. The series reveals the role art and creative imagination have played in forging humanity. Tonight's concluding episode explores art in the age of revolution, war and profound scientific change and considers the question: should art create a separate realm, a place of escape, or should it plunge into the chaos, transforming the way we see and live in the world?

Winston Churchill

## The Great War: American Experience

**Tuesday, July 3 at 9 p.m.**

This series tells the rich and complex story of World War I through the voices of nurses, journalists, aviators and American troops. Tonight's concluding episode opens in the fall of 1918, on the eve of the bloodiest battle in American history — the Meuse-Argonne in northeastern France. Back in the United States, a deadly new enemy swept through cities and military camps: the flu. At the front, more American soldiers were killed by the flu than in combat. Then at 11:00 a.m. on November 11, 1918, the guns fell silent along the Western Front. As the war ends, America is forever transformed by the violent and bloody conflict. And while many herald the peace, others worry about democracy at home.

## Chasing Churchill: In Search of My Grandfather

**Tuesday, July 3 at 11 p.m.**

In the concluding episode of this series, Winston Churchill's granddaughter, Celia Sandys, travels to Morocco and to the South of France in search of those places that gave Churchill particular pleasure. Here, even during the turmoil of the Second World War, he found time to travel with Roosevelt and indulge his favorite relaxation — painting. Towards the end of his life, travel, friends and the solace he found in painting and writing became more and more important to him. Sandy reflects on the life of the man she knew: a life that began on the battlefields of the world, blossomed through remarkable qualities of leadership and inspiration, but then began to fade into the melancholy of old age.

## The Statue of Liberty

**Wednesday, July 4 at 11 p.m.**

For more than 100 years, the Statue of Liberty has been a symbol of hope and refuge for generations of immigrants. In this lyrical, compelling and provocative portrait of the statue, Ken Burns explores both the history of America's premier symbol and the meaning of liberty itself. Featuring rare archival photographs, paintings and drawings, readings from actual diaries and letters and newspapers of the day, the fascinating story of this universally admired monument is told.

## Prohibition

**Mondays at 10 p.m. beginning July 23**

Set in the era of bathtub gin, bootleggers and speakeasies, this documentary series by Ken Burns and Lynn Novick tells the true story of the rise, rule and fall of the 18th Amendment to the U.S. Constitution. It was called the Noble Experiment, but it was in fact one of America's most notorious civic failures, an object lesson in the challenge of legislating human behavior.

# We play in every season

It's a simple fact now that Southern Nevada sports fans have many more choices available than they did just a short time ago.

Barely a year ago, area residents didn't have the options we do now, with at least one professional team competing in every season of the year. Most will rely heavily on hometown fans to fill their arenas.

Here at Vegas PBS, we certainly rely on locals as our audience, too. But we actually have something to offer in every season, all year long.

Take the summer months, for example. When school's out, our daytime PBS KIDS programming is a slam dunk for young minds in need of educational and entertaining stimulation, and it's easily viewed anytime from anywhere.

We don't sell tickets to PBS KIDS programming — it's supported entirely by contributions from viewers. A sponsorship for a program represents a modest investment, and it will be appreciated by an audience comparable to many athletic contests. If you'd like to help bring this programming to young eyes and minds, give us a call.

This month, you'll also be able to enjoy — and, of course, sponsor — our special PBS Summer of Adventure programming. See this month's cover story for details.

In the fall, we'll kick off a new season of the top-flight programming so many viewers cheer for. This, too, is supported by wonderful individual and corporate sponsors, and reaches into large numbers of households that see our sponsors as good community supporters.

Each new year brings to mind our calendar of Celebration Months, which salute the ethnic, cultural and spiritual diversity of our great nation, with programming that over the years has identified a virtual Hall of Fame in American history. Each month offers a specific theme.

Over the course of the year, Celebration Months call attention to the historic achievements of women, Black Americans, Asian Pacific Americans and Hispanic Americans.

November salutes the invaluable contributions of our veterans. April recalls the terrible Holocaust.

We celebrate Earth Day and Martin Luther King Jr. Day in their dedicated months. In June, we recognized the pride of gender diversity.

All of our television programs are supported by our viewers. Sponsorships are essential to our ability to acquire more of the shows you like.

Sports seasons have a relatively short life. We're here all year-round, and with your support for our programming, it will always be "game on."

**“A sponsorship for a program represents a modest investment, and it will be appreciated by an audience comparable to many athletic contests.”**

## THIS WEEK'S PICKS

Chef Marcus Samuelsson

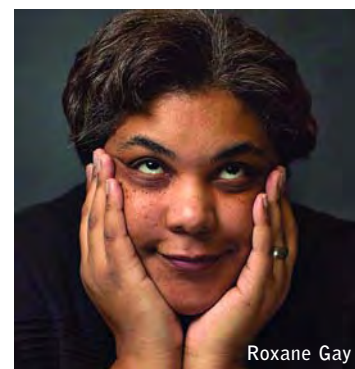

### No Passport Required

**Tuesday, June 10 at 9 p.m.**

**Chef Marcus Samuelsson** — co-owner of New York's critically acclaimed Red Rooster Harlem — embodies America's extraordinarily rich cultural diversity. Born in Ethiopia, raised in Sweden and a proud resident of Harlem, he's inspired by this global background to infuse his culinary experiences with diverse elements of music, history, culture and the arts. This new series celebrates America's diverse cultural mosaic as Samuelsson travels to under-explored parts of American cities to showcase the people, places and culinary flavors of immigrant communities. Join him as he discovers the best global cuisine hidden in six American cities — in the Arab American community in Detroit, the Vietnamese American residents in New Orleans, the Indo-Guyanese community in the New York City borough of Queens, Chicago's Mexican population, the Ethiopian communities of Washington, D.C. and the Haitian community in Miami.

### Breaking Big

**Tuesdays at 11:30 p.m. beginning July 10**

Roxane Gay

This new 12-episode documentary series explores the unexpected journey to success of some of the world's most influential artists, innovators, political leaders, athletes, authors and entrepreneurs. The program explores the twists and turns on the road to thriving careers for some notable figures in various fields. Each episode traces the unusual paths followed by 12 talented men and women — from country music superstar Jason Aldean and writer Roxane Gay to Oscar-winning director Lee Daniels and chef and restaurateur Eddie Huang — who overcame nearly insurmountable obstacles and long odds to reach and reimagine their own potential and, ultimately, to break big. The series will include analysis from eminent social scientists, marketing experts, film critics, book editors and others to help explain the risk-taking and bold moves these journeys require.

## THIS WEEK'S PICKS

Hoover Dam

## 10 Modern Marvels That Changed America

**Tuesday, July 24 at 8 p.m.**

As part of the Summer of Adventure lineup, this fascinating series takes a whirlwind tour of 10 engineering feats that made our civilization possible, including tonight's episode that features our own Hoover Dam! Begun in 1936, it was designed to do the impossible: stop the mighty Colorado River dead in its tracks and provide water and power for the growing cities of Southern California. The dam also employed thousands in the midst of the Great Depression. Celebrate those who have scoffed at the laws of nature and defied the naysayers — and sometimes even gravity — by undertaking these fantastic feats of engineering. Behind many of our daily conveniences was a clever engineer — and a remarkable story.

## Antiques Roadshow: Vintage Omaha

**Monday, July 23 at 8 p.m.  
and Saturday, July 28 at 4 p.m.**

This long-running series captures tales of family heirlooms, yard sale bargains and long-lost items salvaged from attics and basements. This week, host Mark Walberg and appraisers take a look at a past visit to Omaha. See how appraisals from 14 years ago have held up including an Edgar Allan Poe daguerreotype, a Teco collection and a 1907 Frank Lloyd Wright archive.

# The Vietnam War by Ken Burns

Sunday afternoons in July

Kent State University

This ten-part, 18-hour documentary film tells the epic story of one of the most consequential, divisive and controversial events in American history. Visceral and immersive, the series explores the human dimensions of the war through revelatory testimony of nearly 80 witnesses from all sides — Americans who

fought in the war and others who opposed it, as well as combatants and civilians from North and South Vietnam. Included are rarely seen and digitally re-mastered archival footage from sources around the globe, photographs taken by some of the most celebrated photojournalists of the 20th Century, historic

television broadcasts, evocative home movies, and secret audio recordings from inside the Kennedy, Johnson and Nixon administrations. Please see page 17 for start times of this special, as they vary by week.

# Gorongosa Park: Rebirth of Paradise

Sunday, July 1 from 10 am. - Noon

Gorongosa National Park in Mozambique is one of Africa’s greatest wildlife restoration stories, living proof that nature can recover from near collapse, so long as humans protect it and help it to heal. This incredible adventure spotlights Gorongosa, as “rewilding” efforts are made to restore populations

of magnificent creatures after a civil war nearly destroyed the park. The success is crucial to this East African ecosystem and to the global conservation community. The special explores its most remote areas and makes new scientific discoveries while telling dramatic stories of

Garangosa Park

war-traumatized elephants who charge humans on sight, lions that are fighting dynastic battles as well as poachers’ snares, and tiny yet epic struggles in the insect world that affect the entire ecology.

# Martha Bakes

Saturdays at 2 p.m.

In an **all-new season beginning on July 14**, you will learn to create the finest desserts and goodies in your own home. Martha Stewart shares the best baking tips and techniques, giving you the confidence to create delectable baked goods — from scratch — in

your own kitchen. Martha's updated versions of the classics set the standard, while her uses of flavors and ingredients add new angles to some familiar favorites. In the series premiere, Martha teaches us how to replace the usual ingredients with more

wholesome substitutes in three updated classics: luscious rhubarb and raspberry rye crisps, as trendy as they are delicious; flaky butter-milk barley biscuits, and a lofty spelt layer cake lightened with whipped cream and berries.

## Ted Williams: American Masters

Wednesday, July 25 at 9 p.m.

To fans, Baseball Hall of Famer Ted Williams was baseball's Peter Pan: the eternal 'Kid' who combined preternatural gifts with a fierce work ethic to become one of the greatest hitters who ever lived. He served as a flight instructor in World War II and a decorated combat pilot in the Korean War. Lesser known was how he was driven by shame over his Mexican-American background, humiliation over his father's weakness and a deep rage over his mother's virtual abandonment of him. The program will reveal the star player's complicated relationships with his family, teammates, press, fans and himself. Through in-depth interviews, the documentary will demonstrate the power of the heroic myth-making culture in which Williams flourished. *The film originally airs on Vegas PBS Channel 10 on Monday, July 23 at 9 p.m.*

## Magellan Season 2

Tuesdays at 7 p.m.

MHz Choice fan favorite Inspector Magellan (Jacques Spiesser) is back for a second season. He may have one daughter who's flying the coop, but life is still busy with his youngest, Cordelia and his quirky friend, Paul. Then there's the day job – solving crimes in the beautiful town of Saignac. For that, he's got two secret weapons: an intrepid assistant and his journalist girlfriend, Florence. But there's always time to sit around his favorite restaurant, enjoying his friend Nabil's cooking and discussing cases with Paul and Florence. As the French say, Mangez bien, riez souvent, aimez beaucoup – "Eat well, laugh a lot, love abundantly." In French with English subtitles. *Repeats same days at 10 p.m.*

JACKPOT! SPOTLIGHT

## POV: The Workers Cup

Sunday, July 15 at 9 p.m.

In 2022, Qatar will host the biggest sporting event in the world, the FIFA World Cup. But right now, the tournament is being built on the backs of 1.6 million African and Asian migrant workers. These men work exceedingly long hours for scant salaries, and they live isolated in labor camps kept outside city limits. This special gives voice to the men who are laboring to build sport's grandest stage while competing in a soccer tournament of their own – The Workers Cup. It explores universal themes of ambition, aspiration and masculinity, as we see our protagonists wrangle hope, meaning and opportunity out of dismal circumstances. This results in a terrible toll to the psyche of our protagonists, as they are depleted of the hope that motivated them to come to Qatar in the first place.

## Why I Support Vegas PBS...

Janice Allen

As a 70-year Las Vegas resident, I can remember when we had no television. Now, Vegas PBS is celebrating its 50th Anniversary!

Over all these years, Vegas PBS became a very important part of my life. I remember when it first went on the air! I became a member early on.

I began sponsoring shows when Downton Abbey started. I just called the station and said that I wanted to help because I was so excited with the series and all of the excellent programming that I now watch daily.

In fact, Vegas PBS is a very important part of my life. Because it brings me so much pleasure, I help by sponsoring shows. It's so easy to do — just pick up the phone and call, like I did. I have supported many excellent shows since that first Downton Abbey sponsorship. You can become a sponsor of one or more of your favorite shows, too.

Congratulations to Vegas PBS on being rated number one in the country for percentage of viewers. Please join me as a proud Vegas PBS sponsor!

Janice Allen
