A Message from the General Manager

Earth Day

The 1969 fire on the polluted Cuyahoga River in Ohio horrified the nation. The first Earth Day followed in 1970 and reflected increasing public concern about air quality, polluted water, toxic chemicals and habitat threats to people, fish and wildlife. PBS programs of the era like **The National Geographic Specials**, **The Cousteau Odyssey** and **NOVA** provided viewers with many insights on environmental issues and impacts. Within two years of the first Earth Day, reform legislation created the Environmental Protection Agency, the Clean Air Act, lead-based paint restrictions, the ban on DDT, vehicle fuel economy standards and the Clean Water Act with notable bipartisan support.

Earth Day is now an international event intended to honor the Earth. Vegas PBS continues to present viewer-funded programs like **FRONTLINE**, **PBS NewsHour** and **Independent Lens** that discuss the political and economic tradeoffs of environmental conservation, and as well as programs like **Nature**, **Outdoor Nevada** and Ken Burns' **National Parks: America's Best Idea** that celebrate the natural beauty of our world and state.

In keeping with Earth Day, Vegas PBS will air a special three-night **Nature** event. **American Spring Live** will air on April 29, 30 and May 1 at 8 p.m., presenting the annual change from winter to spring recorded from iconic locations across America. Each episode combines spectacular recorded and live footage to explore how each new season triggers extraordinary biological change.

Throughout the month **Outdoor Nevada** will journey across the state, visiting some of Nevada's greatest outdoor treasures. We are learning from locations that we have featured that the program has created an influx of visitors, new donor funding and positive word of mouth to support their work as stewards and presenters of Nevada's natural resources and historic sites. Join our next adventure on **Outdoor Nevada** every Think Wednesdays at 7:30 p.m.

Vegas PBS also makes responsible environmental operations a part of the station's stewardship. The Vegas PBS Educational Technology Campus is an award-winning broadcast facility that is an international model for green broadcasting practices. It incorporates environmental and energy use product standards including LEED, WEE and RoHS and Forest Sustainability Council. The campus uses half the energy per square foot of a facility built to current Clark County building standards. Energy conservation systems reduce carbon emissions by 573 metric tons per year. Seven hundred and nineteen solar roof panels generate over 150,000 watts of power and provide 18 percent of the electrical demand for the building. Windows, skylights and screens maximize the use of natural light and significantly reduce air conditioning needs. Recycled and sustainable materials are used throughout the building, from flooring materials to recycled steel beams, and from sustainable electronics to furniture.

Nature connects viewers to natural beauty across the world. **Outdoor Nevada** connects us to some of the most spectacular locales in our own backyard, and Vegas PBS provides these services in a facility that reduces the station's impact on the environment. As a member of Vegas PBS, we thank you for your support of programming that celebrates the wonders of our natural world.

Dominic West and David Oyelowo

Les Misérables on Masterpiece

Sundays at 9 p.m. beginning April 14

Sponsored by:

Dr. Jeff Brookman

A blockbuster novel for over 150 years comes vividly to life in award-winning screenwriter Andrew Davies' multi-layered retelling of "Les Misérables" by Victor Hugo. This enthralling six-part television event (not a musical) stars Dominic West ("The Affair," "The Wire") as Jean Valjean, the most famous fugitive in literature. David Oyelowo ("Selma") appears as his relentless pursuer, Javert, and Lily Collins ("Rules Don't Apply") is the tragic seamstress, Fantine. Ellie Bamber and Josh O'Connor costar as the young lovers Cosette and Marius.

Lily Collins

One of the longest and most engaging novels ever written, the story was challenging to condense. But in a triumph of scripting, veteran screenwriter Davies preserves Hugo's intricate plotting, striking historical vignettes, powerful themes and evocative characterizations, producing an epic television experience that is worthy of the original novel.

The story opens after the Battle of Waterloo in 1815, which saw Napoleon's final defeat by the English and their allies, a quarter of a century after the French Revolution. With Napoleon's downfall, the French monarchy is restored — and the thwarted ideals of the republic go underground. For most of that quarter century, Valjean has been serving a sentence of hard labor for stealing a loaf of bread. On his release the same year as Waterloo, he immediately resorts to petty crime, risking re-arrest and a life sentence — a fate deemed a virtual certainty by his former jailer Javert.

After this unpromising start, Valjean begins his difficult journey to redemption. Establishing himself under a new name in a provincial town, Valjean seems safe at last. He prospers as a businessman and is eventually appointed mayor. One day, he gives work to a needy young woman, Fantine, who hides the fact that she is the unwed mother of a child named Cosette. As the plot unfolds, the stories of mother and daughter become inextricably entwined with that of the fugitive. But always lurking in the background is Javert, determined to bring him to justice.

With a striking intensity and relevance to us today, the themes of love, death and the struggle for social justice are featured in this beautifully faithful retelling of one of the world's most beloved stories.

Charitable Contribution and the New Tax Act

On Dec. 22, 2017, Congress enacted the Tax Cuts and Jobs Act, the biggest tax reform in over 30 years. Some of the more significant changes are in tax rates, exemptions, credits and deductions, including a near doubling of the standard deduction, including the removal of personal exemption deductions for dependents. Taxpayers who previously itemized deductions may no longer want to do so, and in 2018 may need to make decisions on charitable contributions to benefit their unique individual circumstances. The purpose of this article is to provide new tax considerations for your charitable planning.

The new increased standard deductions are now \$12,000, \$18,000 or \$24,000, depending upon your tax filing status. Taxpayers who now have total itemized deductions below the new standard deduction will likely not receive a tax benefit for charitable donations without changing their annual philanthropic plans. Such planning could include the strategy known as “bundling together” or “bunching” with a Donor Advised Fund (DAF), which allows for continued support of favorite 501(c)(3) public charities and offers the associated tax benefits with charitable giving.

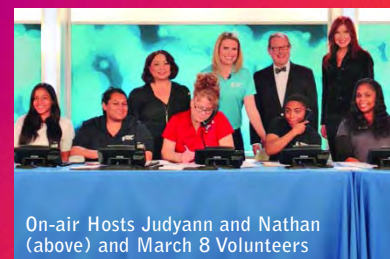

Here’s the basic concept: A donor can contribute multiple years’ worth of donations to a DAF that exceeds the standard deduction in that year. This allows the taxpayer(s) to claim the charitable contribution deduction for that year, and contribute those assets with their support of favorite charities — even in years when there is no new charitable contribution to the DAF.

Another option applies to taxpayers who are older than 70 1/2 years old. The Qualified Charitable Distribution (QCD) is a tax provision that allows an individual to maximize the new standard deductions, whom no longer itemize, through an IRA charitable gift. The QCD also clearly meets the required minimum distribution (RMD) rules for those over 70 1/2. In this way, the RMD requirement is met and the distribution is essentially recharacterized non-taxable income, converted to a charitable contribution. This also provides the taxpayers with dual tax benefits because of the increased standard deductions and decreasing the income level for Social Security recognition.

These processes are effective ways to continue supporting the charities of choice, while also receiving multiple tax benefits. Remember that the Adjusted Gross Income (AGI) limitation for contributions to charities has increased to 60%. A taxpayer can of course always fund a charity directly with a large, one-time donation, or use a DAF while considering the new standard deduction provisions, depending on your filing status. Either way, you still have an annual opportunity to continue supporting your favorite charity and feel the satisfaction of doing so.

Reconstruction: America After the Civil War

Tuesdays, April 9 and 16 at 9 p.m.

In a new four-hour documentary, Professor Henry Louis Gates, Jr. presents the definitive history of one of the least understood chapters in American history — the transformative years following the American Civil War, when the nation struggled to rebuild itself in the face of profound loss, massive destruction and revolutionary social change.

In the aftermath of the Civil War, the nation was devastated by death and destruction. Members of the U.S. Congress endeavored to reunite North and South while granting citizenship rights to newly freed African Americans. Millions of former slaves and free

black people sought out their rightful place as equal citizens under the law. The dream of an interracial democracy was brief, and the broken promises of the Reconstruction era haunt the country to this day. Though tragically short-lived, this bold democratic experiment was, in the words of W. E. B. Du Bois, a "brief moment in the sun" for African Americans, when they could advance and achieve education, exercise their right to vote, and run for and win public office.

The first half of the documentary centers on the pivotal decade following the Civil War,

Interview with Professor and artist Deborah Willis

charting black progress and highlighting the accomplishments of the many political leaders who emerged to usher their communities into this new era of freedom. The second half looks beyond that hopeful decade, when the arc of history bent backwards. Tracing the unraveling of Reconstruction and the rise of Jim Crow segregation in the closing years of the 19th century, the film also looks at the myriad ways in which black people continued to acquire land, build institutions and strengthen communities amidst increasing racial violence and repression. **Repeats Wednesdays, April 10 and 17 at 2:30 p.m.**

No Asylum: The Untold Chapter of Anne Frank's Story

Monday, April 1 at 10 p.m.

Anne Frank

The stunning discovery of the lost letters of Anne Frank's father, Otto, reveal an unknown chapter of their family's life. They unearth new information about the family's struggle to obtain visas to save themselves from the clutches of the Nazis, while the world turned its back on the Franks and millions of others. Leonard Berney, who liberated Bergen-Belsen where Anne and her sister Margot perished, relates the harrowing story. Something of a prequel to Anne's iconic diary, this special shares unknown details of the Frank family's story before they went into hiding in the attic and is a call to action for tolerance and respect. Repeats Sunday, April 14 at noon.

Silent Witness

Saturday, April 6 at 10 p.m.

This hugely successful series uses a unique blend of crime mystery, science and detection. Focusing on a crack team of Home Office pathologists, their mission is to reveal the truth behind the murders and accidental deaths that bring each 'silent witness' to their morgue. New Lyell Centre boss Thomas Chamberlain (Richard Lintern) struggles to impress the team after the death of his predecessor. Dr. Nikki Alexander and Dr. Jack Hodgson must come to terms with a life under a new boss, and the pressure grows to find leads for two unsolved cases — a mother and son murdered in their wealthy London home and the disfigured body of a young woman. Then, a premiere footballer's reputation is under threat when a sex tape links him to the brutal murder of a woman.

THIS WEEK'S PICKS

Independent Lens: The Providers

Monday, April 8 at 10 p.m.

Set against the backdrop of the physician shortage, and opioid epidemic in rural America, this special follows three healthcare professionals in northern New Mexico at El Centro, a group of safety-net clinics that offer care to anyone who walks through the doors. Amidst personal struggles that reflect those of their patients, the journeys of the providers unfold as they work to reach those who would otherwise be left out of the health care system. With intimate access, the film shows the transformative power of providers' relationships with marginalized patients. The three providers — family physician Leslie Hayes, nurse practitioner Chris Ruge and El Centro Medical Director Matt Probst — remain unfailingly compassionate despite a range of challenges from the system to their patients, and sometimes even their own families.

Nature: The Egg: Life's Perfect Invention

Wednesday, April 10 at 8 p.m.

The egg is perhaps nature's most perfect life support system. These remarkable structures nurture new life, protecting it from the outside world at the same time as allowing it to breathe. They are strong enough to withstand the full weight of an incubating parent and weak enough for a hatchling to break free. But how is an egg made? Why are they the shape they are? And perhaps most importantly, why lay an egg at all? Step-by-step as the egg hatches, host David Attenborough reveals the wonder behind these incredible miracles of nature. Repeats Thursday, April 11 at 2:30 p.m.

THIS WEEK'S PICKS

Olivia Colman

Les Misérables on Masterpiece

Sunday, April 14 at 9 p.m.

Victor Hugo's masterpiece comes to television in a six-part adaptation by multi award-winning screenwriter Andrew Davies. Davies goes back to the original novel and delves deep into the many layers of Hugo's story, reveling in Jean Valjean and Javert's cat-and-mouse relationship, against the epic backdrop of France at a time of civil unrest. With a striking intensity and relevance to us today, the novel is testimony to the struggles of France's underclass and how far they must go to survive. The adaptation of the renowned book will vividly and faithfully bring to life the vibrant and engaging characters, the spectacular and authentic imagery and, above all, the incredible yet accessible story that was Hugo's lifework.

Breakthrough: The Ideas That Changed the World: The Telescope

Wednesday, April 17 at 10 p.m.

In 1609, the great Italian scientist Galileo turned his telescope toward the stars and saw the craters of the moon, sunspots, the four large moons of Jupiter and the rings of Saturn. Four hundred years after its invention, the telescope has become an essential scientific instrument, an icon of science, changing our view of the universe and our view of ourselves. In this new special, you will meet the brilliant minds throughout history, from Galileo to Edwin Hubble, responsible for creating the telescope. Today, their invention allows humanity to reach the furthest limits of seeing 13 billion light-years out.

NOVA: Saving the Dead Sea

Wednesday, April 24 at 9 p.m.

There's no place on Earth like it. Cleopatra attributed her beauty to its secrets. King Herod built one of the world's first health spas on its shores. And as the biblical story goes, 'rocks and fire falling from the sky' buried Sodom and Gomorrah and the sea became 'the sea of salt' the Dead Sea. Now this wonder of the world is dying. Since 1976, its level has declined by more than sixty-five feet. Its coastline is pockmarked with thousands of sinkholes. Can the Dead Sea be saved? After more than a decade of research and debate, scientists, engineers and political leaders have come up with a daring plan, one that could not only save the sea but help bring stability to a region rife with conflict. Repeats Friday, April 26 at 2:30 p.m.

Death in Paradise Season 8 (new!)

Saturday, April 27 at 9 p.m.

The smash-hit whodunit returns in an all-new season 8. Detective Jack Mooney is starting to get to know the people and places of Saint Marie. But there's little time for sightseeing, as there are some fiendishly clever murders to solve. From a local radio DJ murdered while live on air to a zookeeper killed by a poisonous dart, Jack and his team have their work cut out. Energetic officer Ruby Patterson — the commissioner's niece — is a new face on the team. Jack must lead them through personal ups and downs while using his unconventional methods to catch the killers. These are some of their most challenging cases yet.

In Remembrance of the Holocaust

Sunday, April 14 from Noon to 2:30 p.m.

At noon, No Asylum: The Untold Chapter of Anne Frank's Story brings the voice of Anne Frank's father to life through his recently discovered letters, revealing for the first time the emotional tale of how the world turned its back on the Franks. See page 25 for details. Then at **1 p.m., EVA: A-7063** recounts the in-

credible true story of an Auschwitz survivor's journey to forgiveness and healing. At the age of 10, Eva Mozes Kor fought to stay alive inside the concentration camp where she and her twin sister Miriam endured cruel experiments devised by Nazi doctor Josef Mengele. After decades of torment and pain following her lib-

eration, she decided to use her experiences as a teaching tool for other generations. Despite health issues, the 4-foot-9, 85-year-old circles the globe delivering her messages of healing and self-empowerment.

Celebrating Passover

Sunday, April 14 from 2:30 p.m. to 4:30 p.m.

Streit's: Matzo and The American Dream at 2:30 p.m. Matzo is a staple and hallmark of Jewish cuisine and culture. This special spotlights the iconic Streit's factory in New York, a fifth-generation family business that resiliently stays true to tradition, celebrating a family's commitment to their heritage.

Four Sons and All Their Sons: A Passover Story at 3:30 p.m. The Four Sons is just a short fable about four boys at the Seder table and how they're treated by their father, but the fable has been relentlessly reinterpreted over the centuries in art, in music and in words. Generations have used it to suggest how to pass

on beliefs to their children, a cornerstone of the Seder and really of all faiths. So, join our Seder, including 34 versions of the story, and meet the most special siblings at any Seder — the Four Sons.

Rick Steves' Europe Specials

Sunday, April 21 from 3:30 p.m. – 5:30 p.m.

Venice

European Easter at 3:30 p.m. Celebrate this 2,000-year-old story with a journey through Spain, Slovenia, Italy and Greece. You'll feel the emotion of this special time as the Passion of Christ unfolds during Holy Week. He joins Andalusians carrying parade floats, Greek priests tossing showers of flower petals and

villagers blessing olive branches, plus feasting, fireworks and more.

Cruising the Mediterranean at 4:30 p.m. Rick sails from Barcelona to Athens with exciting stops along the way in the French Riviera, Rome, Naples and more. His goal is to explore the ins and outs and pros and cons of this pop-

ular travel option. Visit some of the great ports of the Mediterranean — savoring iconic sights, romantic island getaways and lazy time on the beach. Rick also learns how to make the most of the cruising experience while taking advantage of his limited time on shore.

Darley Newman

Travels with Darley

**Tuesdays and Thursdays at
9:30 a.m. beginning April 9**

Join five-time Emmy-nominated television host Darley Newman as she experiences the history, culture, food, music, art and adventure in beautiful and awe-inspiring locations. Each episode introduces diverse cultures, traditions and what makes each location truly unique. Local residents and guides open up to Darley about their favorite spots to reveal the authentic sights, sounds, tastes, aromas and adventures that can only be experienced when you travel like a local, not a tourist. Episodes this season venture to Brittany, France; California's Central Coast; North Dakota's Badlands; Culpeper, Virginia; Alabama; and Arkansas, plus a special episode dedicated to delectable global foods you must try on your travels. **Repeats same days at 3:30 p.m.**

REWIND SPOTLIGHT

Secrets of the Dead: Egypt's Darkest Hour

Tuesday, April 9 at 7 p.m.

A rare mass grave with the bones of nearly 60 people was discovered outside Luxor, dating to the collapse of ancient Egypt's Old Kingdom. Following the long reign of Pepi II, a series of weak kings ruled ineffectively. Without a strong central government, local leaders asserted themselves, fracturing the country's power base. As the climate shifted all over the world, the country was then hit by a decades-long drought that caused a great famine and economic failure. Go behind the scenes with archaeologists and scientists as they search for clues to solve the mystery of whose remains were found, examining the political infighting and a changing climate that brought down an empire. Were the bodies found victims of the famine, civil war or something else?

WORLDVIEW SPOTLIGHT

Mafia Only Kills in Summer

Thursdays at 6 p.m.

Ten-year-old Salvatore Giammarresi (Edoardo Gullone) is a keen observer of the adults around him and the ironies of growing up in Palermo in the 1970s. Salvatore and his two best friends make up a hilarious, unholy trinity. (Think "The Wonder Years" against a mafia backdrop.) But Palermo is under the iron grip of Mafia control. Honest policemen live in jeopardy for their lives. Ordinary citizens live in fear of Mafia reprisal. Each one of Salvatore's family members is touched by the Mafia in a crippling fashion. He sees it all and the injustice rangles, but with the energy and optimism of youth, one hopes that change can happen. In Italian with English subtitles. *Repeats same days at 9 p.m.*

Jail cell

JACKPOT! SPOTLIGHT

Invisible Bars

Sunday, April 7 at 10:30 p.m.

Exploring the effects of mass incarceration, this new documentary is a rare look at families caught in generational cycles of imprisonment. Cesar is learning to become the man of the house at age 15 while coping with an incarcerated father who wants nothing to do with him. Isaiah has lived in a dozen foster homes before the age of 18. And Jessica, who lost her parents to prison at age 9, now ventures behind bars for a life-changing interview with her father, who's been imprisoned for the past 23 years. They're all part of Project Avary, a Bay Area nonprofit that looks after children with parents in prison. Along the way, we meet prison inmates who struggle to maintain relationships with their children. *Repeats Wednesday, April 10 at 9 p.m.*

Why We Support Vegas PBS...

Dr. Tim Hunsaker

Desert Valley Audiology is a strong believer in community. That's why we've always wanted to do more than simply "exist" as a local business.

Although we're a relatively small business with limited marketing funds, we understand and appreciate the importance of quality news and television programming. In our opinion, there are very few community investment opportunities as worthwhile as Vegas PBS.

Since moving to Las Vegas 10 years ago, I've often heard those clichés about how Las Vegas lacks culture and a sense of community. It's not true, and the Las Vegas I know are proud of where they live. We are likewise proud to support Vegas PBS, a truly essential part of our community's foundation.
