A Message from the General Manager

Your Support is Vital in Fall Fundraising Campaign

Last year viewers and sponsors provided over four million dollars to fund Vegas PBS' investment in PBS program fees, producing local programs, and running our urban transmitter and rural translator operations. Your support provides the freedom for our noncommercial public service efforts to prioritize issues, topics and audiences that are historically underserved by commercial advertiser priorities. Performing arts programs, children's education, historical documentaries, scientific discoveries and deep public policy discussions reflect the unique television offerings your support makes possible. Our members are the station's lifeblood, offering the needed support for Vegas PBS to serve all Southern Nevadans — including those unable to support us financially. The quarterly fundraising campaign this month plays a significant role in encouraging others to join you in creating exceptional programming. Here are some (literally) out-of-this world highlights you can expect to see throughout this month:

- Saturday, August 17 at 6:30 p.m. **Les Misérables 25th Anniversary Concert at the 02**
- Sunday, August 18 at 6 p.m. **Downton Abbey Live!**
(Repeats at 9 p.m. and Monday, August 19 at 2:30 p.m.)
- Wednesday, August 21 at 9:30 p.m. **Life from Above: Moving Planet**
- Thursday, August 22 at 7:30 p.m. **Moments to Remember**
- Saturday, August 24 at 6:30 p.m. **70s Soul Superstars**
- Sunday, August 25 at 6:30 p.m. **John Denver: Country Boy**

Vegas PBS members are lifelong learners and have expressed their interest in extending their television experience beyond the screen with other PBS supporters. In response we have created several such opportunities. On August 9 and 10, supporters will travel to Tuacahn and the Utah Shakespeare Festival to enjoy live performances of the *Sound of Music* and *Joseph and the Technicolor Dreamcoat*. On **August 20 at 9 p.m.**, enjoy **Joe Bonamassa: Muddy Wolf Live at Red Rocks** on Channel 10 and learn about a special ticket offer to see Bonamassa live at The Colosseum at Caesars Palace on Sunday, October 27 at 8 p.m. Our annual historic rail road excursion will visit Eloy's Dark Night Star Train September 6 and 7. See page 14 for more details on concert offers and exciting member travel opportunities that take viewing beyond the living room.

Membership comes with many benefits. Members receive this *Vegas PBS Source* monthly program guide and the bi-weekly *Engage* e-newsletter. Members who donate \$60 or more annually or \$5 or more a month as a sustainer gain access to **Vegas PBS Passport**, the online streaming service available on the web, phones and tablets, and over-the-top television devices like Apple TV and Roku, through the PBS Video App. This month's exclusive **Vegas PBS Passport** opportunities include **The Chaperone on Masterpiece**, a new film available **August 10**, more than three months before its broadcast premiere. Binge watch all 10 episodes of Season 2 of hit detective series **Frankie Drake Mysteries** on **August 12**. And next month, you won't want to miss **Country Music, a film by Ken Burns**, with all eight episodes available on **Vegas PBS Passport** the night of the premiere, **September 15**.

Whether you tune in for programming on the arts, science, drama, health or award-winning, locally-focused documentaries and series, Vegas PBS will continue to provide these exceptional shows thanks to the support of members. During this fundraising campaign, consider renewing or increasing your gift, donating for a concert ticket or traveling with other members on unforgettable excursions. I hope you enjoy the exciting lineup of programs airing during this campaign. Thank you for the educational programs and experiences your support of Vegas PBS makes possible.

Ancient Skies: Our Place in the Universe

Wednesday, August 7 at 8 p.m.

Discover how centuries of knowledge, experimentation and engineering helped our ancestors explore outer space. Expert contributors and indigenous storytellers demystify astronomical myths with scientific explanations. This final episode of the series completes the puzzle of our ancient skies. A cast of scientific pioneers reshapes the solar system and better understands a growing universe, but there is still much more space to explore.

NOVA: The Planets

Wednesdays, August 7 and 14 at 9 p.m.

The life of our solar system is told in dramatic stories spanning billions of years.

Saturn August 7

Nearly a billion miles from the Sun lies perhaps the most captivating and beloved planet. NASA's Cassini toured Saturn's realm for 13 years, delivering the most astounding new insights. Saturn's icy rings — about 45,000

miles wide and only 30 feet thick — turn out to be younger than the dinosaurs, raising questions about their origins. Could they be the remnants of a moon ripped apart by Saturn's gravity? Go inside Cassini's epic journey as it makes its most stunning discovery yet: geysers of ice and gas on the moon Enceladus show that it could have all the ingredients for life. But to protect it, Cassini's team must make a bittersweet decision.

Ice Worlds August 14

Beyond the rocky inner planets and the gas giants lie the ice worlds. At over a billion miles from the sun, Uranus and Neptune intrigue scientists from afar. Some 30 years ago NASA's Voyager 1 & 2 journeyed to this bizarre realm, revealing that Uranus is tipped on its side, and Neptune is enveloped by supersonic winds. Pushing further, New Horizons conducted the first fly-by of Pluto in 2015. Its dazzling images revealed Pluto's jagged ice mountains and an underground ocean that changed everything scientists thought about the beloved dwarf planet. Journey inside the missions that rewrote the story of the outer solar system.

Animal Babies:
First Year on Earth

NOVA: Pluto and Beyond

Wednesday, August 14 at 8 p.m.

Since it explored Pluto in 2015, the New Horizons spacecraft has been zooming toward NASA's most distant target yet. Join the mission team as the probe attempts to fly by Ultima Thule, a mysterious object 4 billion miles from Earth. Follow the action in real time as they uncover the secrets of what lies beyond Pluto.

Blue Sky Metropolis

Wednesdays, August 7 and 14 at 10 p.m. and 11 p.m.

How did Southern California become the aerospace capital of the world? What were the consequences of this development for the region, for the nation and for aerospace itself? This new four-part series tells the story of how aerospace was central to the growth of California and its emergence as an economic

NOVA: Pluto and Beyond

power. Discover the Aerospace Century as it unfolds through the lives, often in the words, of the men and women who created it, including John Northrop, Glenn Martin, Donald Douglas, Amelia Earhart, Howard Hughes, Walt Disney and Wernher Von Braun.

Wings August 7 at 10 p.m.

Southern California is established as the undisputed aviation capital of the world, from the 1910 Los Angeles Air Meet to World War II.

The Big Chill August 7 at 11 p.m.

The Cold War and Pentagon dollars fuels the explosive growth of modern Los Angeles and creates the military-industrial complex. Entire suburbs are built in record time and fear of nuclear annihilation spawns the science-fiction genre for Hollywood.

A Space Odyssey

August 14 at 10 p.m.

The triumphant and tragic Space Race unfolds in the first-hand accounts of those who pioneered the technology and built the hardware that made possible mankind's greatest achievement. In the meantime, the military-industrial complex expands unchecked.

NOVA: Lethal Seas

Back to the Future

August 14 at 11 p.m.

The end of the Cold War brings massive layoffs, but tech billionaires choose Southern California to launch their space companies. Though committed to the "democratization" of space, SpaceX and Virgin Orbit include the Pentagon as a major customer.

India - Nature's Wonderland

Tuesday, August 27 from 8 p.m. - 10 p.m.

How does a country with a population of more than a billion people still have room for such a huge range of wildlife? Join wildlife biologist Liz Bonnin, actor Freida Pinto and mountaineer Jon Gupta to explore India's natural wonders. From tigers and gibbons to elephants and rhinos, the sacred Ganges to tea plantations, experience the subcontinent's marvels.

Animal Babies: First Year on Earth

Wednesdays at 8 p.m. beginning August 28

Four renowned wildlife cinematographers travel the globe to follow the lives of six icon-

ic baby animals as they grow and develop. This is the story of what it takes to survive in the wild. Please see page 31 for details.

NOVA: Lethal Seas

Wednesday, August 28 at 9 p.m.

A deadly recipe is brewing that threatens the survival of countless creatures throughout Earth's oceans. For years, we've known that the oceans absorb about a quarter of the carbon dioxide in our atmosphere. But with high carbon emissions worldwide, this silent killer is entering our seas at a staggering rate, raising the ocean's acidity. As a result, the skeletons and shells of marine creatures that form the foundation of the web of life are dissolving. Follow the scientists making breakthrough discoveries and seeking solutions. Can our experts crack the code of a rapidly changing ocean before it's too late?

Magical Land of Oz

Wednesdays at 10 p.m. beginning August 28

Burrow into the magical depths of Australian animal life as unique species navigate extremes on land and sea. Blue chip cameras capture the continent's diverse animal populations ranging from the land's highest snow peaks to the depths of the frigid and wild southern seas; from its last populations of wild numbats to its largest diorama of giant cuttlefish. It's a land of diverse beauty, that delights and surprises. The series both entertains and deepens our understanding of how the natural world is made up of not just unique species, but distinct individuals, whose lives are far from predictable.

Outback

Wednesdays at 11 p.m. beginning August 28

Filmed over the course of two distinct seasons, this three-part series explores the people and animals of Australia's Kimberley region in North West Australia, a vast, rugged and remote wilderness bursting with character. As large as California, Kimberley has a population of only about 40,000 people, who live alongside animals that have superbly adapted to the harsh and beautiful extremes of their habitat.

Vegas PBS' Ready To Learn Offers Invaluable Summer Resources

Carolina and her six-year-old son, Cisco, never missed a session of Vegas PBS' *The Cat in the Hat Knows a Lot About That!* Family and Community Learning (FCL) workshops. This program, offered through Vegas PBS' grant-funded Ready To Learn initiative, introduces families to science and engineering concepts through four, weekly sessions, all based on the popular PBS KIDS television series. "This workshop really gave us a breather once a week, where we could get out of the house and distract ourselves from what was going on," the married mother of four revealed. 2018 was a challenging year for the Perez family — they suffered the loss of family members and close friends. Despite her grief, Carolina signed up for the workshops to support Cisco's love of learning, "He's into science... He asks questions nonstop."

Cisco's favorite activity during the FCL was creating bouncy balls out of water balloons — a simple and fun hands-on method to extend science concepts into the home using everyday materials. This was a solemn evening for Carolina, however. "It was the night after my aunt had passed away...it was so sudden," she added. Carolina contemplated skipping the FCL, but seeing Cisco's enthusiasm motivated her to attend.

The simple bouncy ball the Perez' made provided a healing effect on their family during that difficult time. That evening, Cisco showed his bouncy ball to his uncle. As Cisco joyfully described how he created it, Carolina noticed her uncle was smiling too. "He was giggling. He was excited. He was able to keep his mind off the planning of the service," she explained. While Vegas PBS offers workshops to gather and engage families in science concepts, Carolina's story reminds us we are also a safe, reliable community partner for families to turn to for support when needed.

When reflecting on how the FCL impacted Cisco's learning, Carolina said the activities showed him, "how to be a thinker and be open-minded [about] all the resources he could use [to create]." With a smile, Carolina admitted, "All the things going into the recycling catch his eye now."

Carolina is only one of thousands of parents and caregivers, who use educational tools acquired at Ready To Learn's community outreach programs annually. Vegas PBS leverages your donations to secure grants and sponsorships from community partners to sustain these unique initiatives. Your continued support to Vegas PBS helps ensure families like the Perez' have access to high-quality educational resources to support learning at home, including tablets, books and take-home materials. We encourage you to visit our website and learn more about the latest Ready To Learn projects and events happening in our community, at VegasPBS.org/rtl.

Woodstock: Three Days That Defined a Generation: American Experience

Tuesday, August 6 at 9 p.m.

In August 1969, half a million young people from all walks of life journeyed from every corner of the country to a dairy farm in upstate New York for a concert unprecedented in scope and influence. Celebrating the 50th anniversary of Woodstock, this special examines the tumultuous decade that led to those three historic days — years that saw the nation deeply divided by Vietnam and racial, generational and sexual context — through the voices of those who were present for the event that would become the defining moment of the counterculture revolution. "The values of 'peace and love' ... were actually put to the test in the miserable conditions at Woodstock," said director Barak Goodman. "More than 400,000 people who attended the festival proved that they were more than just words."

THIS WEEK'S PICKS

Eleanor Tomlinson and Harry Richardson

Poldark Season 4 on Masterpiece

Sunday, August 11 at 8 p.m.

Don't miss the drama and suspense of the Season 4 finale tonight! Elizabeth hopes to persuade George that Valentine is his child. Ross tries to mend things with Demelza. Dwight delivers the Warleggans a daughter and George tells Elizabeth of his knighthood. The Poldarks (Eleanor Tomlinson and Harry Richardson) look to a new century of change together.

Family Pictures USA: North Carolina

Monday, August 12 at 9 p.m.

This three-part series explores American cities, towns and rural communities through the lens of the family photo album. In this episode, we visit North Carolina, a historically rural state that is changing rapidly. Through family photos, we learn how tobacco money transformed Durham from a sleepy small town into a prosperous city with a thriving African American middle class. Outside of Burlington, the Occaneechi Band of the Saponi Nation have repurchased ancestral lands to serve as a cultural and educational gathering place for the tribe. Families long separated by race and class are finding healing through recognizing their kinship as black and white descendants from the same ancestors. And a Korean American pastor heads a church whose mission is to help integrate the region's latest immigrants into the community.

This thrilling open air concert is an official celebration of the iconic series and the music from the show, hosted by actor Jim Carter in character, as the beloved Mr. Carson. He will look back over his time at Downton Abbey and remember the many characters that filled the home over the years. Mr. Carson will also recall some of the most significant events that took place in the house, showing a rich collection of clips and montages on high definition screens from the series to illustrate the lives, loves and losses from across all six seasons. The orchestra performs songs from the beautiful soundtrack, along with special guest singers for songs such as "I'll Count The Days" and "If You Were The Only Girl In The World."

Joe Bonamassa: Muddy Wolf at Red Rocks

Tuesday, August 20 at 9 p.m.

Joe Bonamassa is hailed worldwide as one of the greatest guitar players of his generation. In this spectacular concert, he performs at Red Rocks Amphitheater in Colorado, celebrating the music of blues legends Muddy Waters and Howlin' Wolf. The setlist is primarily sourced from the catalogs of Howlin' Wolf, one of the most influential Chicago bluesmen of all time, and Muddy Waters, considered the "father of modern Chicago blues" and a major inspiration for the British blues explosion of the 1960s. Bonamassa grew up with that genre which influences his own music to this day. Bonamassa also performs songs from his own extensive catalog. **Repeats Friday, August 23 at 10:30 p.m.**

Animal Babies: First Year on Earth

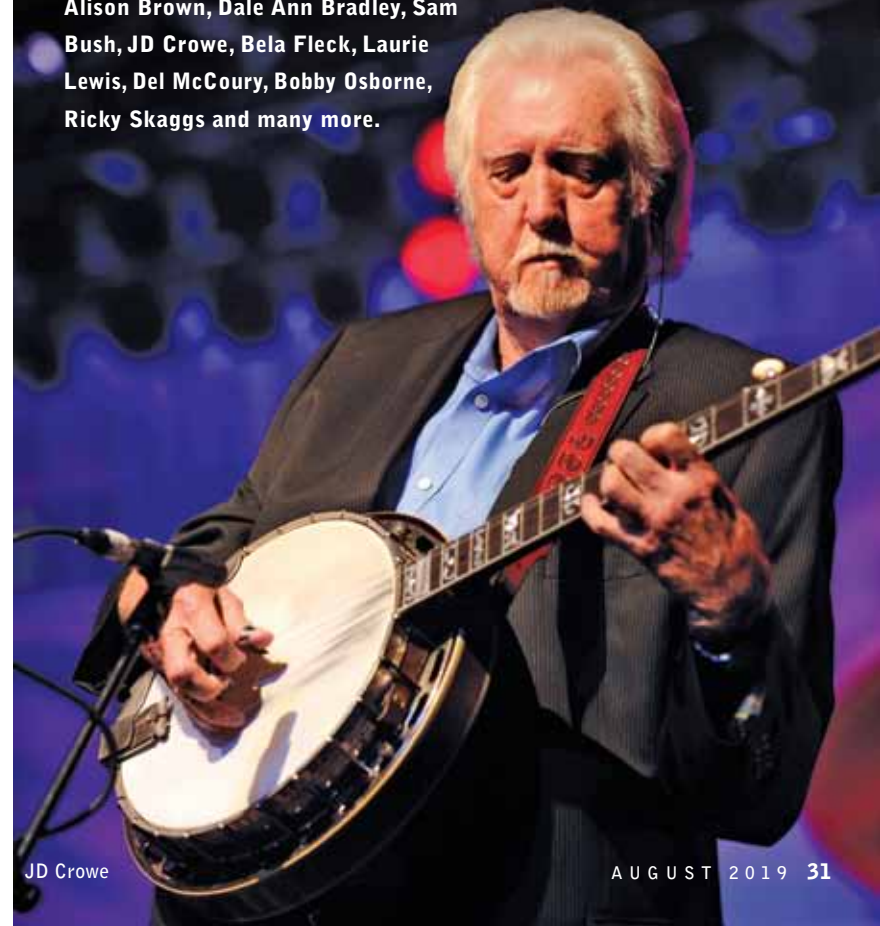

Wednesdays at 8 p.m. beginning August 28

Like all babies, young animals can have a first year filled with joy, love and play. But there will also be challenges, sometimes on a daily basis. To survive, they must overcome threats and challenges from rivals, from the elements, and predators. To tell the stories of these magical months, four renowned wildlife cinematographers travel the globe to follow the lives of six iconic baby animals as they grow and develop. This is the story of what it takes to survive in the wild, during their first year on earth.

Big Family: The Story of Bluegrass Music

Friday, August 30 at 9 p.m.

This comprehensive look at bluegrass traces the genre's history — its origins, the pioneers who shaped its sound and its worldwide appeal. The film begins by exploring the life of Bill Monroe, who moved, along with his brothers, from the tiny town of Rosine, KY, to Chicago, to find work, just as many others did during the 1930s. Monroe got his start on WLS, the largest radio station in Chicago at the time. When Monroe moved from Chicago to Nashville, he became a hit on the Grand Ole Opry stage and solidified his place in music history as the "Father of Bluegrass." The special features more than 50 musicians, including Alison Brown, Dale Ann Bradley, Sam Bush, JD Crowe, Bela Fleck, Laurie Lewis, Del McCoury, Bobby Osborne, Ricky Skaggs and many more.

and August 11 from 1 p.m. to 5 p.m.**

We continue our summer marathon viewing of this immensely popular series. This month, we continue with Season Four, set in 1922. Six months after Matthew's tragic death, his loss is still felt throughout the great house. Accepting a new role on the estate, the now-eligible Mary finds herself the reluctant object of attention from a number of eager suitors. Rose's contin-

ued attraction to the bright lights of London spells trouble, and Edith's budding relationship with Michael Gregson is threatened by events beyond her control. Then moving into Season 5, we find the Crawley family and the staff struggling with responsibilities and choices as they adjust to life in the Roaring Twenties. And for members of Vegas PBS Passport, beginning

Michelle Dockery in Downton Abbey

on August 18 you will find a delightful binge opportunity for the entire series whenever the Downton mood strikes you.

This Old House - 40th Anniversary Special

Saturday, August 17 at 10 a.m.

In 1979, when the series began as a local show broadcast in Boston, the genre of renovation programming did not exist, but the step-by-step renovation of an aging house caught on with its audience and it has become a television staple for forty years. Now join us for a nostalgic look back at 40 years of renovations

with the crew, including former hosts Bob Vila and Steve Thomas. The special also includes a journey with carpenter Norm Abram, plumber Richard Trethewey and host Kevin O'Connor as they visit the house that served as the show's first project, a mansard-roofed Victorian in Dorchester, Massachusetts.

Les Misérables 25th Anniversary Concert at the O2

Sunday, August 18 at 1:30 p.m.

No one could have guessed on October 8, 1985, when "Les Misérables" opened in London at the Barbican Theatre, that it would become a world-wide phenomenon. In 2010, the legendary musical celebrated its 25th birthday, and the occasion was marked by an extraordinary performance featuring more than 500 actors and musicians,

including Alfie Boe, Jenny Galloway, Katie Hall, Nick Jonas and Lea Salonga. The magnificent concert also includes the October 2010 cast of the long-running production at London's Queen's Theatre and members of the original 1985 London cast, including Colm Wilkinson. The score includes "I Dreamed a Dream," "On My Own,"

"Stars," "Bring Him Home," "Do You Hear the People Sing?," "One Day More," "Master of the House" and many more. **The special also airs on Saturday, August 17 at 6:30 p.m.**

Life from Above: Moving Planet

Sunday, August 25 at 8 a.m.

This ambitious new four-part series provides fascinating and fresh insights into our planet by expanding the range of perspectives from which to look at it. In addition to stunning satellite photography from space, drones were employed to generate footage, along with helicopters and cameras on the ground. What is revealed is a ca-

dence — the rhythm by which the earth moves, colors and visual patterns — and the planet's constant evolution. These qualities, which reach across topographical divides as well as human-made borders, cultures and politics, are only apparent when the planet is considered as a whole. In this episode, cameras in space tell stories of

life on our planet from a new perspective. Satellites follow an elephant family struggling through drought, reveal previously unknown emperor penguin colonies from the color of their poo and discover mysterious ice rings that could put seal pups in danger. **Also airs Wednesday, August 21 at 9:30 p.m.**

Monday, August 26 at 8 p.m.

This special tells the rich and complex story of World War I through the voices of nurses, journalists, aviators and the American troops who came to be known as "doughboys." The film also explores the experiences of African-American and Latino soldiers, suffragists, Native American "code talkers" and others whose participation has been largely forgotten. Learn how President Woodrow Wilson steered the nation through years of neutrality, only to reluctantly lead America into the bloodiest conflict the world had ever seen, transforming the United States into a dominant player on the international stage. It is a story of heroism and sacrifice that would ultimately claim 15 million lives and profoundly change the world forever. **Repeats immediately following at 10 p.m.**
