## A Message from the General Manager

# VEGAS PBS EXPANDS ESSENTIAL RESOURCES

**A**s we navigate through these isolating times in Nevada and around the world, Vegas PBS remains committed to bringing together the most valued television programming and online health and educational resources to support families, educators and our loyal members across the state and in Southern Nevada.

In addition to the insightful news and analysis that you can trust on the **PBS NewsHour** and **BBC World News**, our local public affairs team on **Nevada Week** continues to cover what Nevadans need to know about this global pandemic. Shows have focused on managing personal fear and panic, navigating the financial implications of the virus, filing for small business loans or unemployment insurance, and accessing at home educational resources. Our production team is also producing TV and online updates with the factual information and how to access local and national resources and the heroes who are assisting the most needy in our community. You can watch these at [vegaspbs.org/nevada-week](http://vegaspbs.org/nevada-week). Additional updates on the pandemic are available on our [vegaspbs.org/covid19](http://vegaspbs.org/covid19) web page.

With the closure of all K-12 schools in Nevada, Vegas PBS has been making educational resources available to the public online and over the air. Our regular programming on Channel 10.1 has been modified with 12-hours of uninterrupted curriculum-based programming serving students in Pre-K to 12th grade. Curriculum guides that compliment these programs are available at [vegaspbs.org/learn](http://vegaspbs.org/learn), along with additional at-home learning tools for elementary, middle and high school students statewide. Online tools are also available on how to talk to your children about coronavirus, hands-on activities and tips to help kids play and learn at home. Adults seeking career education or professional development can visit [vegaspbs.org/onlineeducation](http://vegaspbs.org/onlineeducation) for instructor-led online courses. Through our partnership with Nevada's OneStop and Workforce Connections over 40 high-demand career certifications are eligible for tuition assistance for the unemployed.

Now more than ever, viewers and members can turn to the trusted, diverse and entertaining programming that characterizes Vegas PBS. New seasons of **Midsomer Murders** and **Death in Paradise** premiere this month. The much anticipated **Asian Americans** five-hour film series also premieres on **Monday, May 11 at 8 p.m.** The **National Memorial Day Concert** will continue this year, airing on **Sunday, May 24 at 8 p.m.** In addition to these great titles, one of the best features about being a member of Vegas PBS is your access to **Vegas PBS Passport**, which allows you to stream your favorite shows from an on-demand library of quality local and national public television programming. If you haven't activated your account yet, visit [vegaspbs.org/passport](http://vegaspbs.org/passport) to learn how. As a valued member of Vegas PBS, you are also familiar with our many signature events, trips and concerts. Due to growing concerns over the spread of the coronavirus, many of these events have been postponed. Please be sure to check [vegaspbs.org/tickets](http://vegaspbs.org/tickets) for updates.

During unsettling times, Vegas PBS is a reliable resource. Because of your support, public television brings you trusted news, entertaining programs and educational resources unlike any other service in our community, and with an unduplicated reach. Your contributions continue to give us the ability to provide the highest level of service as the coronavirus continues to impact our daily lives. We are working every day to better serve you and the needs of our community, and we thank you for your support. We wish you and your loved ones a safe and healthy spring season.

### Midsomer Murders Season 16

**Saturdays at 7:30 p.m.**

Work never slows down for DCI John Barnaby, as he investigates the grizzly murders that plague a picturesque English county in the U.K.'s much-adored crime series. This season, Barnaby partners up with a new face, DS Charlie Nelson (Gwilym Lee, "Bohemian Rhapsody"). They will be busy, as the inhabitants of Midsomer county are not nearly as charming as the villages in which they reside. In the premier episode on **May 2**, Barnaby and

Nelson barely have time to introduce themselves before they are thrown into a surreal mystery. A man is fatally stabbed with an antique sword during a ghost-hunting party at a "haunted" manor house. Can Barnaby and Nelson find a more earthly motive behind the murder and trap the killer? As the season progresses, the cases don't get any less bizarre, as the two detectives contend with killers employing medieval torture, stunt planes and wild boars.

George W. Bush: American Experience

The Roosevelts:  
An Intimate History

# Stories in Times of War

## Throughout the Month

### **George W. Bush: American Experience** Monday and Tuesday, May 4 and 5 at 9 p.m.

This two-part special looks at the life and presidency of George W. Bush and features interviews with historians, journalists and several members of the president's inner circle. Part One chronicles Bush's unorthodox road to the White House. The once wild son of a political dynasty, few expected Bush to ascend to the presidency. Yet 36 days after the November 2000 election, Bush emerged the victor of the most hotly contested race in the nation's history. Little in the new president's past could have prepared him for the events that unfolded on September 11, 2001. Thrust into the role of war president, Bush's response to the deadly terrorist attack would come to

define a new era in American foreign policy. Part Two opens with the ensuing war in Iraq and continues through Bush's second term, as the president confronts the devastating impact of Hurricane Katrina and the most serious financial crisis since the Great Depression.

### **9/11: Inside the Pentagon** Monday, May 4 at 11 p.m.

This film reveals new, first-hand accounts of the attack that took place at the heart of the U.S. military headquarters — an attack in which 184 people from inside the building and on board American Airlines flight 77 perished. Witness survivors telling their stories, many for the first time. Watch as first responders recount their battle with a jet-fueled inferno that came dangerously close to shutting down the National Military Command

Center (NMCC), the country's nerve center for military operations. Hear from aviation professionals, who provide a bigger picture of the attacks across the eastern seaboard, and shed light on events at the Pentagon before, during and after the attack. This is the most complete telling of what happened at the Pentagon on a day that forever changed our world.

### **The Queen at War** Tuesday, May 5 at 8 p.m.

Princess Elizabeth was a child of thirteen on September 3, 1939, when her father King George VI informed the people that Britain was at war. This revelatory documentary tells the story of the Queen's experiences during WWII and how the longest-reigning monarch in British history was shaped by the war. Hear from people who were with her, as well as from historians, journalists and royal commentators as they reveal how these years were so formative for Elizabeth and how, in many ways, it led to the Queen we know today.

### **D-Day: The Price of Freedom** Monday, May 11 at 11 p.m.

This special pays tribute to the courageous men who began the liberation of France more than 60 years ago. Throughout this moving documentary, former paratroopers, gunners, landing craft operators and others representing the U.S. Army and U.S. Navy share their

harrowing tales of survival. Five veterans — some of whom were returning to Normandy for the first time since 1944 — make an emotional journey to the American Cemetery overlooking Omaha Beach, the final resting place of 9,000 of their fallen comrades. There, each speaks candidly about the unimaginable horror, despair and fear of the day. The film also explores why these aging men remain heroes to the French people. During their visit, young and old alike honor their liberators with toasts, ceremonies and other tokens of gratitude.

## **Omaha Beach: Honor and Sacrifice**

**Sunday, May 24 at 11 p.m.**

On D-Day, a roughly 7,000-yard stretch of beach in Normandy, France, given the code name "Omaha" proved to be the Allies' biggest obstacle to the success of Operation Overlord. The assignment to take Omaha Beach, establish a beachhead and move inland into France was given to two American divisions — the already battle-hardened 1st Infantry Division and the untested 29th Infantry Division, who had yet to see any combat in World War II. American Naval Combat Demolition Units also hit the beach that day, writing their own individual stories of horror and heroism. Seven decades after the *"Boys of Omaha Beach"* landed, many veterans are returning to this part of the Normandy coast for the last time. Other soldiers who were there on D-Day have also come back for the first time since that historic day, looking for closure as they enter the final years of their lives.

## **The Roosevelts: An Intimate History (by Ken Burns)**

**Sundays at 3:30 p.m. with parts 6 and 7 from 1:30 p.m. to 5:30 p.m. on May 24**

Ken Burns's seven-part documentary weaves the stories of Theodore, Franklin and Eleanor Roosevelt, three members of one of the most prominent and influential families in American politics. See page 34 for details.

## **Margaret: The Rebel Princess**

**Friday, May 8 from 10:30 p.m. to 12:30 a.m.**

This insightful biography of Princess Margaret, Queen Elizabeth's beautiful and rebellious younger sister, offers unparalleled insight into Margaret's turbulent life and times, featuring rare footage and interviews with those who knew her best. Her unique position as the Queen's younger sister in a changing Britain left her free to experiment and push boundaries, yet she was forever judged by a public and press beginning to

Omaha Beach: Honor and Sacrifice

question the very idea of a monarchy. While Margaret often followed the rigid rules under which she was raised, she also stepped outside those rules and into scandal. A complicated

and contradictory princess, her story parallels her era, when the rules of social norms were being rewritten and a freer, more egalitarian society was emerging.

## **Specials on Jewish Experiences May 26 from 8 p.m. - 11 p.m.** **Finding Your Roots: Beyond the Pale at 8 p.m.**

Henry Louis Gates, Jr. explores the Jewish heritages of actor Jeff Goldblum, radio host Terry Gross and comedian Marc Maron, uncovering previously unknown stories that show each shares much more with their ancestors than a religious tradition.

## **Viral: Antisemitism in Four Mutations at 9 p.m.**

By virtually every yardstick, antisemitism in the U.S. and Europe is rising and worsening in ways not seen since the 1930s. It comes in the forms of vandalism, social media abuse, assault and murder. Like a virus, it mutates and evolves across cultures, borders and ideologies, making it all but impossible to stop. Emmy®-winning filmmaker Andrew Goldberg travels through four countries to speak firsthand with victims, witnesses, antisemites, and interview subjects including Bill Clinton, Tony Blair, Fareed Zakaria, George Will, Deborah Lipstadt and many others.

## **Stories of Survival: Final Transports 10:30 p.m.**

In 1944, at the height of the deportation of Hungarian Jews, Magda Brown and George Brent arrived as teenagers to the notorious Auschwitz-Birkenau concentration camp. Through Magda and George's eyes, this episode portrays the human aspects of survival, resistance, chance and luck in the face of Nazi tyranny.

Vegas PBS is proud to present vital, in-depth news and timely documentaries during these uncertain times.

### FRONTLINE: Inside Italy's COVID War

**Tuesday, May 19 at 10 p.m.**

In March, Italy became the new, global epicenter of the coronavirus pandemic, with its death toll surpassing China's. Also included in this special is a report on how the coronavirus outbreak is impacting

Asian Americans

# ASIAN-PACIFIC AMERICAN HERITAGE MONTH

Throughout May

## Asian Americans

This new series explores the impact of Asian Americans on the country's past, present and future, told through individual lives and personal histories.

### Part 1: Breaking Ground / A Question of Loyalty

**Monday, May 11 at 8 p.m.**

Barred by anti-Asian laws, Asians become America's first "undocumented immigrants," yet they build railroads, dazzle on the silver screen and take their fight for equality to the U.S. Supreme Court. Their loyalties are tested during World War II, when families are imprisoned in detention camps, and brothers find themselves on opposite sides of the battle lines.

### Part 2: Good Americans / Generation Rising

**Tuesday, May 12 at 8 p.m.**

During the Cold War years, Asian Americans are simultaneously heralded as a Model Minority and targeted as the perpetual foreigner. A young generation fights for equality in the fields, on campuses and in the culture, and claim a new identity: Asian Americans.

### Part 3: Breaking Through

**Tuesday, May 12 at 10 p.m.**

A new generation of Asian Americans are empowered by growing numbers and rising influence but face a reckoning of what it

The Registry

means to be an American in an increasingly polarized society.

### The Registry

**Monday, May 11 at 10 p.m.**

A very long Excel spreadsheet resides on an old computer near the window of an upstairs bedroom in suburban Minneapolis. The spreadsheet is a list of names of thousands of World War II veterans that served in the U.S. Military Intelligence Service, the M.I.S. Seiki Oshiro is the keeper of the registry. He also served in the M.I.S. He wonders if his children or grandchildren know what they did during the War. Most of the veterans of World War II have passed on and many have told their stories, recorded for history. But for those in the M.I.S., made up of Japanese-Americans who fought in the Pacific against the Japanese enemy, so many of those stories have been lost, as the unit was sworn to secrecy for decades after the war.

This special profiles a few of those who served, revealing stories they've never shared until now. The film looks at decisions made in a time of war regarding loyalty to a country while facing racism and the mass internment in the U.S. of people of Japanese descent.

## Antiques Roadshow: Celebrating Asian-Pacific Heritage

**Monday, May 18 at 9 p.m.**

Travel with the iconic series as it turns the spotlight on incredible items with Asian and Pacific Islands origins, including a Hawaiian kou bowl, a Ghandi presentation spinning wheel and an 1888 Joseph Nawahi painting. Which is valued at \$250,000-\$300,000?

## Mr. Tornado: American Experience

**Tuesday, May 19 at 9 p.m.**

The Super Outbreak of 1974 was the most intense tornado outbreak on record, tearing a vicious path of destruction across thirteen states, generating 148 tornadoes from Alabama to Ontario, damaging thousands of homes and killing more than 300 people. Meteorologist Tetsuya Theodore "Ted" Fujita spent ten months studying the outbreak's aftermath in the most extensive aerial tornado study ever conducted, making a series of meteorological breakthroughs. His discovery of "microbursts," sudden high wind patterns that could cause airplanes to drop from the sky without warning, transformed aviation safety and saved untold numbers of lives. This is the remarkable story of the man whose groundbreaking work saved thousands of lives and helped prepare for and respond to dangerous weather phenomena.

## CONTINUITY OF LEARNING

**V**egas PBS is committed to education and has been a major contributor in the endeavor to ensure continuity of learning at home during the COVID-19 pandemic and school closures across Nevada.

Three days after schools closed, Vegas PBS launched a website, [classroomcast.org](https://classroomcast.org), filled with family-friendly lessons for students in elementary, middle and high school. Multi-modality lesson formats are accessible and provide a wide variety as we understand that children learn in many ways. Vegas PBS listened to the many caregivers working from home and ensured that independent, engaging activities were also included to provide much needed family support as well.

Vegas PBS then heard the call to ensure those without internet service also had access to quality educational experiences and changed the weekday broadcast schedule to accommodate our students at home. The Vegas PBS broadcast signal is free and available to viewers in Clark, Lincoln, Nye and White Pine counties.

Regular PBS KIDS pre-K through grade 3 programming remained until 2 p.m., with special curriculum-based programming for grades 4-8 broadcast from 2 p.m.- 4 p.m. and then for grades 9-12, from 4 p.m.- 6 p.m. Vegas PBS also ensured that lessons specific to this specialized programming were available for those with the ability to access the website at [vegaspbs.org/learn](https://vegaspbs.org/learn). We heard that many teachers also utilized these resources as they worked with their students from afar.

Also available via broadcast and to give families ideas for at-home learning, Vegas PBS created multiple 30-second spots to share literacy and engineering activities for children. These simple ideas were derived from the Vegas PBS Ready To Learn family engagement workshops and utilize recyclable items around the house to explore concepts such as ramps, bridges, material science and sound. If possible, families are encouraged to post pictures of their products by tagging @vegaspbs on social media.

To encourage hands-on language arts continuity in the home, Vegas PBS also extended the deadline of the VEGAS PBS KIDS Writers Contest Presented by Janice Allen to June 1, 2020. The contest empowers children in grades K-5 to celebrate creativity and build literacy skills by writing and illustrating their very own stories. Contest information and updates can be found at [vegaspbs.org/writers-contest](https://vegaspbs.org/writers-contest).

The COVID-19 pandemic and subsequent school closures has magnified the Vegas PBS mission to use television and other technologies to educate and empower individuals and is ever more evident in these critical educational services that are assisting with continuity of learning at home during this difficult time.

## THIS WEEK'S PICKS

### Midsummer Murders Season 16: Let Us Prey

Saturday, May 9 at 7:30 p.m.

Homicide, blackmail, greed and betrayal: just a taste of what goes on behind the well-trimmed hedges of Midsummer County in this deliciously sinister series. In tonight's episode, a series of murders in Midsummer St. Claire seem to be inspired by macabre images on a medieval fresco recently discovered in the church crypt. A masked woman is found drowned in a river, and her father-in-law is crushed to death at a builder's yard. As the village prepares for storms and flooding, it appears that someone is using ancient torture methods to punish modern-day "sinners." But who is responsible and why?

### Expedition with Steve Backshall: Mexico - Maya Underworld

Wednesday, May 6 at 10 p.m.

This exciting series reveals that there are still parts of our planet yet to be discovered. Explorer and naturalist Steve Backshall pursues incredible journeys and world firsts — unclimbed peaks, unexplored cave systems and uncharted landscapes — setting foot where no human has been before. Head into the unknown with Steve as he endures extreme physical challenges, encounters extraordinary wildlife and teams up with remarkable people along the way. In this week's episode, Steve returns to Mexico where he explores a honeycomb of subterranean Mexican caves that the ancient Maya believed were a portal to a terrifying underworld. In a dark and flooded cave, he finds incredible never-before-seen artifacts.

## THIS WEEK'S PICKS

### Speaking Grief

Sunday, May 10 at 11 p.m.

Learn why the pain of losing a loved one can be so difficult to understand and discuss. The film interviews grieving families from across the U.S., whose losses range from stillbirth to suicide, to address common misconceptions about grief. ### Asian Americans

This new series explores the impact of Asian Americans on the country's past, present and future, told through individual lives and personal histories.

#### Part 1: Breaking Ground / A Question of Loyalty

Monday, May 11 at 8 p.m.

Barred by anti-Asian laws, Asians become America's first "undocumented immigrants," yet they build railroads, dazzle on the silver screen and take their fight for equality to the U.S. Supreme Court. Their loyalties are tested during World War II, when families are imprisoned in detention camps, and brothers find themselves on opposite sides of the battle lines.

#### Part 2: Good Americans / Generation Rising

Tuesday on May 12 at 8 p.m.

During the Cold War years, Asian Americans are simultaneously heralded as a Model Minority, and targeted as the perpetual foreigner. A young generation fights for equality in the fields, on campuses and in the culture, and claim a new identity: Asian Americans.

#### Part 3: Breaking Through Tuesday, May 12 at 10 p.m.

A new generation of Asian Americans are empowered by growing numbers and rising influence but face a reckoning of what it means to be an American in an increasingly polarized society.

## THIS WEEK'S PICKS

### Created Equal: Clarence Thomas in His Own Words **Monday, May 18 at 10 p.m.**

Although Clarence Thomas remains a controversial figure, loved by some, reviled by others, few know much more than a few headlines and the recollections of his contentious confirmation battle with Anita Hill. With unprecedented access, the producers interviewed Justice Clarence Thomas and his wife, Virginia, for over 30 hours of interview time, over many months. After a brief introduction, the documentary proceeds chronologically, combining Justice Thomas' first-person account with a rich array of historical archive material, personal photos and evocative recreations. Unscripted and without narration, the documentary takes the viewer through this complex and often painful life, dealing with race, faith, power, jurisprudence and personal resilience.

### NOVA: Decoding COVID-19

This documentary follows the journey of four disabled veterans as they travel to a prison in Gatesville, Texas, to be paired with a service dog. These dogs have been expertly trained by female prison inmates serving hard time. Not only do these dogs help the veterans on a very practical level, but they also provide constant emotional support, protection and relief from the terrors of their combat-related Post Traumatic Stress Disorder (PTSD). Peppered among the vulnerable and broken veteran stories, is the lighthearted joy of the puppies, the redirected lives of the female inmates and the good-natured humor of the veterans and inmates as they work closely together. The film is a story of redemption for the inmates and profound new hope for the veterans, through the unconditional love of these very special dogs.

**WORLD SPOTLIGHT**

**P.O.V.: The Apology**

Wednesday, May 6 at 10:30 p.m.

During World War II, the Imperial Japanese Army kidnapped approximately 200,000 young women and forced them into military sexual slavery as “comfort women.” This special follows three of these women — Adela Reyes Barroquillo in the Philippines, Cao Hei Mao in China and Gil Won-Ok in South Korea — in the ongoing movement pressing the Japanese government for a formal apology that has never come. Seventy years after their imprisonment, and after decades of living in silence and shame, these once invisible women (culturally referred to as “grandmothers”) give their first-hand accounts of the truth for the record in hopes that this horrific chapter of history will not be forgotten.

Hedy Lamarr

**REWIND SPOTLIGHT**

**Bombshell: The Hedy Lamarr Story:**

**American Masters**

Friday, May 29 at 9 p.m.

Hollywood star Hedy Lamarr (“Ziegfeld Girl,” “Samson and Delilah”) was known as the world’s most beautiful woman — Snow White and Cat Woman were both based on her iconic look. However, her arresting appearance and glamorous life stood in the way of her being given the credit she deserved as an ingenious inventor whose pioneering work helped revolutionize modern communication. An Austrian Jewish emigrant who invented a covert communication system to try to help defeat the Nazis, Lamarr was ignored and told to sell kisses for war bonds instead. It was only toward the very end of her life that tech pioneers discovered that it was her concept that is now used as the basis for secure WiFi, GPS and Bluetooth technologies.

**JACKPOT SPOTLIGHT**

**The Story of China with Michael Wood**

Saturdays, May 2-16 from 9 p.m.- 11 p.m.

Historian Michael Wood explores the history of the world’s oldest continuous state, from the ancient past to the present day. Traveling across the country, he explores the landscapes, peoples, stories and cultures that have helped create China’s distinctive character and genius over more than four thousand years. Wood meets people from all walks of life, explores ancient cities and traces some of the great moments in Chinese history — from their extraordinary voyages of exploration, to amazing scientific inventions. The series shows how the Chinese created their own distinctive vision of the world: a vision that is still alive in the 21st century and indeed, Wood argues, is the real motor behind the incredible and growing success of China today.

## Why We Support Vegas PBS...

We have a special friend & neighbor we'd like to introduce.

Our friend is funny, entertaining, informative, challenging, stimulating, unbiased, honest and dependable.

Our friend fills our hearts, feeds our heads, answers our questions and entices us with thought provoking information we didn't even think we had interest in ... and now we do.

Our friend has knowledge, wisdom, patience and is always there when needed; no matter what time of the day or night.

We welcome our friend babysitting our grandchildren and influencing their development as well as being a comforting companion to our parents as they continue to mature.

Our "bestie" is as much a historian as a visionary, preserving history and tradition as well as opening up worlds of possibilities.

Our friend is a leader who continues to set a great example of making a huge difference in our community; in front of our eyes as well as humbly behind the scenes.

Our comrade doesn't ask much from us except to be our company and offer our support. Checks are appreciated but so is our involvement and participation.

We'd like to introduce you to our friend ... It's Vegas PBS!

Vegas PBS is one of our favored community organizations for all the reasons above and more. We experience ongoing fulfillment in offering our support and welcome you to join us in making a difference. Tune in, turn on, roll up your sleeves and get involved. Look forward to seeing you in the neighborhood!
