MESSAGE FROM OUR PRESIDENT & GENERAL MANAGER

Exploring Nevada Just Got Easier with Vegas PBS

One of the best things about living in Las Vegas is the weather and the plethora of opportunities for outdoor recreational activities. From Blue Diamond to Mount Charleston, to Boulder City and beyond, Southern Nevada is a truly beautiful place that I am still discovering. Our goal with **Outdoor Nevada** is to take viewers on a journey to see and experience the best of the Silver State. Now in its fifth season, the program features the most breathtaking destinations and exciting adventures waiting to be explored. As the weather gets warmer and we start thinking about our summer plans, we are excited to launch a new tool for all the outdoor enthusiasts.

A few months in the making, our new **Outdoor Nevada Interactive Map** is now ready and available at vegaspbs.org/outdoornevada. With more than 150 locations, our new interactive map has a curated selection of statewide landmarks and places to visit across Nevada. You can also find video segments from each season of **Outdoor Nevada**, as well as direct links to each location for additional resources. The map is mobile optimized, so you can access it on-the-go. We hope you take us with you on your next Nevada adventure!

Another great activity to add to your summer lineup is our list of upcoming concerts and events. We are excited to bring back some of our audience favorites and give you a chance to see them live in concert, starting this month with **Pavlo** and next month with Italian tenor **Pasquale Esposito**, both performing at The Space Las Vegas. Each of these VIP experiences includes an exclusive meet and greet with the artists. Turn to page 11 for a full list of more concerts and events, including our overnight trip to the Utah Shakespeare Festival in July.

Our programming this month has something for everyone. Drama fans welcome new episodes of **Father Brown** and

Call the Midwife, while science buffs enjoy a new season of **Nature** with episodes which include **Hippo King** and **American Arctic**. Meanwhile, our magazine cover celebrates an American figure that stands the test of time. Benjamin Franklin is one of the 18th century's most consequential and compelling personalities. A scholar and scientist, Franklin is credited with inventing the lightning rod, swim fins, and one invention I am especially grateful for — bifocals! On **Monday, April 4 at 8 p.m.**, don't miss the premiere of **Benjamin Franklin, A Film by Ken Burns**. This two-part, four-hour documentary offers viewers an intimate portrait of the man behind the inventions and shows his commitment to societal and self-improvement, that has lasting effects today.

“It brings me great joy to share with you, about all the exciting new things happening at Vegas PBS. We are broadcasters with so much more to share beyond the broadcast. Thank you for being a partner we can count on and supporting our mission in public service.”

Big Sonia

Sunday, April 17 at 11 p.m.

In the last store in a defunct shopping mall, 91-year-old Sonia Warshawski — great-grandmother, businesswoman, and Holocaust survivor — runs the tailor shop she's owned for more than 30 years. But when she's served an eviction notice, the specter of retirement prompts Sonia to resist her harrowing past as a refugee and witness to genocide. A poignant story of generational trauma and healing, the film also offers a laugh-out-loud-funny portrait of the power of love to triumph over bigotry, and the power of truth-telling to heal us all.
